## Chinese World:

**Changing Stories in the Chinese World** Mark Elvin, 1997 This is an imaginative evocation and analysis through the medium of translations the author's own of once popular but now forgotten literature of the variety of stories in terms of which the Chinese have interpreted their lives since the early years of the 19th century

**Chinese Global Infrastructure** Austin Strange, 2023-12-21 Infrastructure is at the heart of China's presence in global development and is also central to larger debates about Chinese influence This Element provides a comprehensive account of major Chinese government financed infrastructure projects in the Global South since 1949 Using new datasets it demonstrates that Chinese global infrastructure is distinct in terms of its historical tenacity and massive contemporary scope But this does not imply that contemporary Chinese global infrastructure or the Belt and Road Initiative should be studied in a vacuum Historical and comparative perspectives show that contemporary projects often emerge based on similar political logics to those that shaped infrastructure investment in earlier periods of Chinese history and other international contexts The Element then examines how infrastructure projects have created both purposeful and unintended sources of influence by serving as valuable but risky political capital for host country governments as well as the Chinese government This title is also available as Open Access on Cambridge Core

**Soft Power With Chinese Characteristics** Ying Zhu, Kingsley Edney, Stanley Rosen, 2019-12-05 This book examines the Chinese Communist Party's attempts to improve China's image around the world thereby increasing its soft power This soft attractive form of power is crucial if China is to avoid provoking an international backlash against its growing military and economic might The volume focuses on the period since Xi Jinping came to power in 2012 and is global in scope examining the impact of Chinese policies from Hong Kong and Taiwan to Africa and South America The book explains debates over soft power within China and delves into case studies of important policy areas for China's global image campaign such as film news media and the Confucius Institutes The most comprehensive work of its kind the volume presents a picture of a Chinese leadership that has access to vast material resources and growing global influence but often struggles to convert these resources into genuine international affection With a foreword by Joseph Nye *Soft Power With Chinese Characteristics* will be invaluable to students and scholars of Chinese politics and Chinese media as well as international relations and world politics more generally
