**The Chinese Human Rights Reader** Stephen C. Angle, Marina Svensson, 2001 Weiyun and Others 1979 Handbook on Human Rights in China Sarah Biddulph, Joshua Rosenzweig, 2019 This Handbook gives a wide ranging account of the theory and practice of human rights in China viewed against international standards and China's international engagements around human rights The Handbook is organised into the following sections contested meanings international dimensions economic and social rights civil and political rights rights in action and access to justice political dimensions of human rights in Greater China and new frontiers Debating Human Rights in China Marina Svensson, 2002 Drawing on little known sources Marina Svensson argues that the concept of human rights was invoked by the Chinese people well before the adoption of the Universal Declaration of Human Rights in 1948 and it has continued to have strong appeal after 1949 both in Taiwan and on the mainland These largely forgotten debates provide important perspectives on and contrasts to the official PRC line The author gives particular attention to the issues of power and agency in describing the widely divergent views of official spokespersons establishment intellectuals and dissidents Until recently the PRC dismissed human rights as a bourgeois slogan yet the globalization of human rights and the growing importance of the issue in bilateral and multilateral relations has grown Thus the regime has been forced to embrace or rather appropriate the language of human rights an appropriation that continues to be vigorously challenged by dissidents at home and abroad **Taiwan and International Human Rights** Jerome A. Cohen, William P. Alford, Chang-fa Lo, 2019-05-16 This book tells a story of Taiwan's transformation from an authoritarian regime to a democratic system where human rights are protected as required by international human rights treaties There were difficult times for human rights protection during the martial law era however there has also been remarkable transformation progress in human rights protection thereafter The book reflects the transformation in Taiwan and elaborates whether or not it is facilitated or hampered by its Confucian tradition There are a number of institutional arrangements including the Constitutional Court the Control Yuan and the yet to be created National Human Rights Commission which could play or have already played certain key roles in human rights protections Taiwan's voluntarily acceptance of human rights treaties through its implementation legislation and through the Constitutional Court's introduction of such treaties into its constitutional interpretation are also fully expounded in the book Taiwan's NGOs are very active and have played critical roles in enhancing human rights practices In the areas of civil and political rights difficult human rights issues concerning the death penalty remain unresolved But regarding the rights and freedoms in the spheres of personal liberty expression privacy and fair trial including lay participation in criminal trials there are in depth discussions on the respective developments in Taiwan that readers will find interesting In the areas of economic social and cultural rights the focuses of the book are on the achievements as well as the problems in the realization of the rights to health a clean environment adequate housing and food The protections of vulnerable groups including indigenous people women LGBT

lesbian gay bisexual and transgender individuals the disabled and foreigners in Taiwan are also the areas where Taiwan has made recognizable achievements but still encounters problems The comprehensive coverage of this book should be able to give readers a well rounded picture of Taiwan s human rights performance Readers will find appealing the story of the effort to achieve high standards of human rights protection in a jurisdiction barred from joining international human rights conventions This book won the American Society of International Law 2021 Certificate of Merit in a Specialized Area of International Law

**Contemporary Confucian Political Philosophy** Stephen C. Angle, 2013-04-17 Confucian political philosophy has recently emerged as a vibrant area of thought both in China and around the globe This book provides an accessible introduction to the main perspectives and topics being debated today and shows why Progressive Confucianism is a particularly promising approach Students of political theory or contemporary politics will learn that far from being confined to a museum contemporary Confucianism is both responding to current challenges and offering insights from which we can all learn The Progressive Confucianism defended here takes key ideas of the twentieth century Confucian philosopher Mou Zongsan 1909 1995 as its point of departure for exploring issues like political authority and legitimacy the rule of law human rights civility and social justice The result is anti authoritarian without abandoning the ideas of virtue and harmony it preserves the key values Confucians find in ritual and hierarchy without giving in to oppression or domination A central goal of the book is to present Progressive Confucianism in such a way as to make its insights manifest to non Confucians be they philosophers or simply citizens interested in the potential contributions of Chinese thinking to our emerging shared world

Moral Triumph Zhibin Xie, 2023 This book examines Christianity in China by building a constructive theology for the distinctive realities of Chinese culture society and politics It proposes Christian public responsibility to identify the moral problems in Chinese public life and proposes a public face of Christianity in China theologically and ethically

**Essays in Honour of Göran Melander** Jonas Grimheden, Rolf Ring, 2006 This volume illustrates the complex relationship between dissemination of human rights standards and their application in human rights law and thus serves as a tribute to Melander s belief in and commitment to the dynamics of education in human rights law
