Chinese Moonlight:

When China Goes to the Moon... Marco Aliberti, 2015-07-04 This book is about China's ambitions in its most complex and internationally visible space endeavor namely its human space exploration programme. It provides a comprehensive reflection on China's strategic direction and objectives in space including in particular those set forth in its human spaceflight programme and analyses the key domestic and external factors affecting the country's presumed manned lunar ambitions. The objective of the book is to disentangle the opportunities and challenges China's space ambitions are creating for other spacefaring nations and for Europe in particular. It therefore includes an in-depth analysis of possible European postures towards China in space exploration and seeks to stimulate a debate on future space strategies in the broader context of world politics.

The Human Factor in the Settlement of the Moon Margaret Boone Rappaport, Konrad Szocik, 2021-11-19 Approaching the settlement of our Moon from a practical perspective, this book is well suited for space program planners. It addresses a variety of human factor topics involved in colonizing Earth's Moon including history, philosophy, science, engineering, agriculture, medicine, politics, policy, sociology, and anthropology. Each chapter identifies the complex interdisciplinary issues of the human factor that arise in the early phases of settlement on the Moon. Besides practical issues, there is some emphasis placed on preserving, protecting, and experiencing the lunar environment across a broad range of occupations from scientists to soldiers and engineers to construction workers. The book identifies utilitarian and visionary factors that shape human lives on the Moon. It offers recommendations for program planners in the government and commercial sectors and serves as a helpful resource for academic researchers. Together, the coauthors ask and attempt to answer: How will lunar society be different?

China Moon Cookbook Barbara Tropp, 1992-10-01 Winner of an IACP Julia Child Cookbook Award. The Julia Child of Chinese cooking. San Francisco Chronicle. Barbara Tropp was a gifted teacher and the chef/owner of one of San Francisco's most popular restaurants. She was also the inventor of Chinese bistro, a marriage of home style Chinese tastes and techniques with Western ingredients and inspiration, an innovative cuisine that stuffs a wonton with crab and corn and flavors it with green chili sauce; that stir fries chicken with black beans and basil; that tosses white rice into a salad with ginger balsamic dressing. Casual yet impeccable and as balanced as yin and yang, these 275 recipes burst with unexpected flavors and combinations: Prawn Sandpot Casserole with Red Curry and Baby Corn; Spicy Tangerine Beef with Glass Noodles; Pizzetta with Chinese Eggplant, Wild Mushrooms, and Coriander Pesto; Chili Orange Cold Noodles; Sweet Carrot Soup with Toasted Almonds; Wok Seared New Potatoes; Crystallized Lemon Tart and Fresh Ginger Ice Cream.
