

The background of the cover is a traditional Chinese ink wash painting. It depicts a mountainous landscape with several pine trees. In the center, a man with a beard, wearing a long robe, is seated on a rock, leaning forward as if writing or reading. To his left, a child is standing, looking up at him. The painting is executed in dark ink on a reddish-brown background.

Chinese Mystics:

Early Chinese Mysticism Livia Kohn, 2020-10-06 Did Chinese mysticism vanish after its first appearance in ancient Taoist philosophy to surface only after a thousand years had passed when the Chinese had adapted Buddhism to their own culture This first integrated survey of the mystical dimension of Taoism disputes the commonly accepted idea of such a hiatus Covering the period from the Daode jing to the end of the Tang Livia Kohn reveals an often misunderstood Chinese mystical tradition that continued through the ages Influenced by but ultimately independent of Buddhism it took forms more various than the quietistic withdrawal of Laozi or the sudden enlightenment of the Chan Buddhists On the basis of a new theoretical evaluation of mysticism this study analyzes the relationship between philosophical and religious Taoism and between Buddhism and the native Chinese tradition Kohn shows how the quietistic and socially oriented Daode jing was combined with the ecstatic and individualistic mysticism of the Zhuangzi with immortality beliefs and practices and with Buddhist insight meditation mind analysis and doctrines of karma and retribution She goes on to demonstrate that Chinese mysticism a complex synthesis by the late Six Dynasties reached its zenith in the Tang laying the foundations for later developments in the Song traditions of Inner Alchemy Chan Buddhism and Neo Confucianism

Mysticism and Meaning: Multidisciplinary Perspectives Alex S. Kohav, 2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences The collection brings together researchers from such disparate fields as philosophy psychology history of religion cognitive poetics and semiotics in an effort to ascertain the question of mysticism s meaning through pertinent up to date multidisciplinary The discussion commences with Editor s Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity s origins being steeped in mystical praxis and four essays highlight mysticism s formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy s relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality

The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States

Teaching Mysticism William B. Parsons, 2011-12-16 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom
