Neuroscience of Preference and Choice Raymond J. Dolan, Tali Sharot, 2012 One of the most pressing questions in neuroscience psychology and economics today is how does the brain generate preferences and make choices With a unique interdisciplinary approach this volume is among the first to explore the cognitive and neural mechanisms mediating the generation of the preferences that guide choice From preferences determining mundane purchases to social preferences influencing mating choice through to moral decisions the authors adopt diverse approaches to answer the question Chapters explore the instability of preferences and the common neural processes that occur across preferences Edited by one of the world's most renowned cognitive neuroscientists each chapter is authored by an expert in the field with a host of international contributors Emphasis on common process underlying preference generation makes material applicable to a variety of disciplines neuroscience psychology economics law philosophy etc Offers specific focus on how preferences are generated to guide decision making carefully examining one aspect of the broad field of neuroeconomics and complementing existing volumes Features outstanding international scholarship with chapters written by an expert in the topic area

Choice and Change April O'Connell, 1997 Written in a warm and humanistic style with an abundance of examples this solid comprehensive introduction to the essentials of psychology offers an accessible balance of theory research and applications and encourages students to apply material to their personal social educational and vocational lives Holistic in approach it emphasises responsible self direction and moral ethical values **Psychology of Behaviour Restrictions and Public Compliance in the Pandemic** Barrie Gunter, 2022-07-12 This volume examines the topic of compliance with COVID 19 restrictions and the non pharmaceutical measures taken by governments in attempts to bring the pandemic under control Discovery that COVID 19 was largely transmitted through the air meant that public health strategies were needed to limit close physical contact between people Epidemiological modelling offered initial interventions to tackle the rate of spread but to be effective these measures were dependent on widespread public adoption and compliance This book examines the key theories and empirical approaches to behavioural change and compliance and reviews research on their relative

effectiveness in driving public behaviour Author Barrie Gunter considers four principal models used nudge theory social identity group processes theory theory of planned behaviour and the capability opportunity motivation behaviour COM B model Gunter weighs the pros and cons of each offers commentary on lessons that can be learned from their application during the pandemic and what they may have to offer in a triangulated approach theoretically methodologically and in terms of policy making Examining not just the extent of compliance but also the psychological drivers of this behaviour over time this is essential reading for students and researchers in psychology public health and medical sciences and policy makers assessing government strategies responses and performance *Reader's Choice, 6th Edition* Sandra Silberstein, Barbara K. Dobson, Mark A. Clarke, 2023-02-28 Teaching students complex reading strategies for everyday and academic reading

Knowledge Resistance in High-Choice Information Environments Jesper Strömbäck, Åsa Wikforss, Kathrin Glüer, Torun Lindholm, Henrik Oscarsson, 2022-05-23 This book offers a truly interdisciplinary exploration of our patterns of engagement with politics news and information in current high choice information environments Putting forth the notion that high choice information environments may contribute to increasing misperceptions and knowledge resistance rather than greater public knowledge the book offers insights into the processes that influence the supply of misinformation and factors influencing how and why people expose themselves to and process information that may support or contradict their beliefs and attitudes A team of authors from across a range of disciplines address the phenomena of knowledge resistance and its causes and consequences at the macro as well as the micro level The chapters take a philosophical look at the notion of knowledge resistance before moving on to discuss issues such as misinformation and fake news psychological mechanisms such as motivated reasoning in processes of selective exposure and attention how people respond to evidence and fact checking the role of political partisanship political polarization over factual beliefs and how knowledge resistance might be counteracted This book will have a broad appeal to scholars and students interested in knowledge resistance primarily within philosophy psychology media and communication and political science as well as journalists and policymakers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
