Choices and Change Nancy Birdsall, Ramesh Deosaran, Amos Tincani, Elena M. Suárez, Richard J. Bloomfield, Sarath Rajapatirana, Andrés Serbin, Alan K. Henrikson, Charles A.T. Skeete, Havelock R.H. Ross-Brewster, Karen S. Walch, Steven B. Bloomfield, Bertus J. Meins, 1996-01-01 Fourteen essays by experienced political leaders researchers and scholars examine the political economy and international relations of the Caribbean Strategies for sustainable development include proposals to link productive structures among private sectors and increase institutional flexibility Agricultural Globalization Trade and the Environment Charles B. Moss, Gordon C. Rausser, Andrew Schmitz, Timothy G. Taylor, David Zilberman, 2012-12-06 The relative prosperity in U S agriculture that attended the passage of the Federal Agriculture Improvement and Reform Act of 1996 was followed by a general decline in U S agricultural prices from 1998 to 2000 This trend in declining prices continues through the year 2001 despite the movement toward more liberalized agricultural trade Trade liberalization has been the result of a variety of factors including the implementation of the Uruguay Round Agreement and the establishment of a variety of regional trade agreements such as the North America Free Trade Agreement Needless to say in the face of falling agricultural prices and increasingly liberalized agricultural trade the agricultural policy scene is an extremely complex one both locally and globally The chapters in this volume look to understand this complexity by addressing the interaction between trade the economic well being of the farm sector and the possibilities for future policy reform The chapters collected here explore a number of different issues including the operation of the tariff rate quotas established under the Uruguay Round Agreement the implications of sanitary and phytosanitary restrictions on trade and the growing controversy over genetically modified organisms In addition several chapters analyze the interaction between agricultural trade and environmental concerns The Contemporary Caribbean Robert B. Potter, David Barker, Thomas Klak, Denis Conway, 2015-07-17 This text focuses on the contemporary economic social geographical environmental and political realities of the Caribbean region Historical aspects of the Caribbean such as slavery the plantation system and plantocracy are explored in order to explain the contemporary nature of and challenges faced by the Caribbean The book is divided into three parts dealing respectively with the foundations of the Caribbean rural and urban bases of the contemporary Caribbean and global restructuring and the Caribbean industry tourism and politics The Dialectics Of Globalization Menno Vellinga, 2019-05-28 Challenging conventional theories about the process and impact of globalization The Dialectics of Globalization is from the Latin America in Global Perspective series Through comparative analyses of case studies by leading economists social scientists and geographers from Asia Latin America the Caribbean and Europe this volume refines the u The Influence of Small States on Superpowers Richard L. Bernal, 2015-07-22 The conventional wisdom is that small developing countries exert limited if any influence on the foreign policy of superpowers in particular the United States This book challenges that premise based on the experience of the small developing country of Jamaica and its relations with the

United States It raises the question if the foreign policy of the United States can be influenced by even a small developing country should Washington be worried *Social Sciences* Lawrence Boudon, Katherine D. McCann, 2003-09-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2001 and Katherine D McCann has been assistant editor since 2000 The subject categories for Volume 59 are as follows Anthropology Economics Geography Government and Politics International Relations Sociology Electronic Resources for the Social Sciences **Governance and Institutional Re-engineering** Ann Marie Bissessar, 2009-03-26 Governance and Institutional Re engineering comprises a series of thought provoking articles on governance and the institutions of governance It commences with what amounts to a plea by a well respected academician in the field of Public Administration Gerald Caiden in an article entitled Towards Cleaner Government The book brings together scholars from across the world In setting out their various perspectives integrity in public life women and politics and neighbourhood management among the various themes the writers demonstrate the range and diversity of debates involved in the governance of any country The book was certainly successful in presenting an interesting informed well written discussion of contemporary challenges and recent discussions in the field of government and public administration **Current Awareness Bulletin** , 1996 *Ethnic Relations in Plural Societies* , 2025-10-27 One of the main legacies of slavery and indentured labour is the existence of multi ethnic and multicultural societies in former tropical colonies of the European empires After the abolition of slavery the indentured labourers were brought to the plantation colonies in order to meet the need for cheap labour for the production of tropical goods From the beginning they faced a situation in which they were regarded as competitors for the freed slaves and or the local population At the same time in various cases the freed slaves and their descendants considered themselves as the indigenous people and were treated as such by the colonial governments In their perspective the colonial governments spent too many resources on the immigration of foreign labourers resources that could have been used to improve the socio economic situation of the descendants of the former slaves To this date this

historical past overshadows the relations between different ethnic groups in so called plural societies This book deals with the relations between different ethnic groups in these societies and the challenges they meet to establish peaceful and democratic societies The volume consists of chapters on these societies such as South Africa Guyana Trinidad and Tobago and Suriname The Journal of Developing Areas ,1996 *International Working Paper Series* ,1997
