## Choices Freshman Seminar:

Choices Roberta L. McFadden, 2007      **Choices** Carmen B. Schmersahl and Michael G. Sollenberger, 1996      Choices Roberta L. McFadden, 1994      **Putting Choice Before Democracy** Emily Hauptmann, 1996-07-03 In this critique of rational choice theory Emily Hauptmann explores the idea central to the theory namely that democracy can best be explained in terms of an economic conception of choice Her argument turns on the claims that the choices we face as citizens are not reducible to the choices we face as consumers and that democracy cannot be reduced to a series of choices economic or otherwise      **Mate Choice** Gil G. Rosenthal, 2017-07-18 A major new look at the evolution of mating decisions in organisms from protozoans to humans The popular consensus on mate choice has long been that females select mates likely to pass good genes to offspring In Mate Choice Gil Rosenthal overturns much of this conventional wisdom Providing the first synthesis of the topic in more than three decades and drawing from a wide range of fields including animal behavior evolutionary biology social psychology neuroscience and economics Rosenthal argues that good genes play a relatively minor role in shaping mate choice decisions and demonstrates how mate choice is influenced by genetic factors environmental effects and social interactions Looking at diverse organisms from protozoans to humans Rosenthal explores how factors beyond the hunt for good genes combine to produce an endless array of preferences among species and individuals He explains how mating decisions originate from structural constraints on perception and from nonsexual functions and how single organisms benefit or lose from their choices Both the origin of species and their fusion through hybridization are strongly influenced by direct selection on preferences in sexual and nonsexual contexts Rosenthal broadens the traditional scope of mate choice research to encompass not just animal behavior and behavioral ecology but also neurobiology the social sciences and other areas Focusing on mate choice mechanisms rather than the traits they target Mate Choice offers a groundbreaking perspective on the proximate and ultimate forces determining the evolutionary fate of species and populations      **Factors that Influence the Career Choices of Rural Minority Students** Bernice Moore, 1983      Cornell University Courses of Study Cornell University, 1999      **Choice**, 2004      Resources in Education, 2000-10      **Journal of the Freshman Year Experience**, 1990      **Records and Briefs New York State Appellate Division**,      Reform of Undergraduate Education Arthur Levine, John Weingart, John R. Weingart, 1973      First-year Academic Advising M. Lee Upcraft, Gary L. Kramer, 1995 This monograph is designed to provide a blueprint to educators on how to improve academic advising for first year college students      The 1994 National Survey of Freshman Seminar Programs Betsy Overman Barefoot, Paul P. Fidler, 1996      **The College Handbook** College Entrance Examination Board, 1999 Presents information on 4 year colleges and universities and 2 year community colleges and technical schools      **Business Education Forum**, 1998      **College Student Affairs Administration** Elizabeth J. Whitt, 1997      **The Freshman Year Experience** M. Lee Upcraft, John N. Gardner, 1989-05-19 The Freshman Year Experience presents an authoritative comprehensive guide to the

policies strategies programs and services designed to ensure student achievement in the first year of college and so to facilitate student retention and academic success in subsequent years      **Sustaining and Improving Learning**

**Communities** Jodi Levine Laufgraben, Nancy S. Shapiro, 2004-06-28 Publisher Description      On Course Skip Downing, 2005

Facilitator s manual includes chapter by chapter summaries excerise and notes
