supervisors what a leader models how they think speak and act influences the people they lead Leaders who think speak and act unkindly give legitimacy and permission to those they lead to think speak and act in exactly the same unkind ways Today in a world where a leaders words and actions travel quickly through social media channels such as Twitter their influence unkind or kind is amplified through repeated views and sharing In an increasingly fragmented polarized and divided world we need leaders who will bring people together not divide them Leaders who value and model cooperation and collaboration over competition And who model ways to think kindly speak kindly and act kindly We need kindness to become synonymous with good leadership So that when someone is asked to describe the traits of a good leader kindness will be the first word that comes to mind Essentially the purpose of this book is to teach leaders how to lead with kindness so they can influence the people they lead to create kinder workplaces organizations and the world Each chapter contains a mixture of theory case studies and reflections from leaders and the people they influence As well the book follows the fictional stories of Kay La Janson and Kevin Landrell as they become leaders in a failing organization that is ultimately turned around through kind leadership Between chapters there are a series of practical exercises based on concepts presented in the previous chapter with space to record outcomes and reflections on the practice process This book gives you a deep theoretical understanding of the importance of leading with kindness and also provides practical exercises for you to use to turn theory into practice Because change means doing things differently and because we only really learn by doing to create kinder organizations kinder communities and a kinder world leaders must be able to begin practicing kindness right away By the time you finish the book you will feel confident in your ability to lead with kindness and also to address organizational problems at work at home and in the community with kindness
