Choose Your Enemies Carefully:

Choose Your Enemies Carefully Robert N. Charrette, 1991 Outthink the Competition Kaihan Krippendorff, 2011-12-20

A Fast Company blogger and former McKinsey consultant profiles the next generation business strategists the Outthinkers. Outthinkers are entrepreneurs and corporate leaders with a new playbook. They see opportunities others ignore, challenge dogma others accept as truth, rally resources others cannot influence, and unleash new strategies that disrupt their markets. Outthink the Competition proves that business competition is undergoing a fundamental paradigm shift and that during such revolutions outthinkers beat traditionalists. Outthink the Competition presents stories of breakthrough companies like Apple, Google, Vistaprint, and Rosetta Stone whose stunning performances defy traditional explanation and will inspire readers to outthink the competition. Core concepts in the book include: Discover the Eight Dimensions of Disruption, Learn to play by the Outthinker Playbook, Develop the Five Habits of the Outthinker, Implement the Outthinker Process. It's time to buck tradition in order to stay ahead. Outthink the competition and uncover opportunities hiding in plain sight.

American Heart of Darkness Robert Kirkconnell, 2013-05-21. These days most Americans know that the country has serious problems. Problems that will have to be addressed before the country can move forward. What are these problems? Where did they come from? Before we can move forward we have to know where we are and how we got there. American Heart of Darkness paints an unvarnished picture of the seeds of destruction that were sown into the foundations of the Republic from the very beginning. How did slavery come about in the land of the free? How did a pre-Columbian native population in North America alone of over eighteen million yes you heard it right, native peoples dwindle down to about two hundred thousand? Was it really Small Pox? Why has a people who constantly talk about freedom, democracy, equality, human rights, life, liberty, and the pursuit of happiness continually practiced racism, genocide, and war? How do drugs come into the country and who is really behind the most profitable product sold in the world? There are also other unanswered questions that need to be explored. Why were thousands of the worst Nazi war criminals given refuge in the U.S.? Who financed Hitler? Where did Hitler get his master race and genocidal ideas from? Was Lee Harvey Oswald a C.I.A. agent? Were Oswald, Sirhan, Sirhan, Ted Kaczynski, Timothy McVey, and the Peoples Temple all mind control MKULTRA subjects? What really happened in the Jeffery MacDonald so-called Fatal Vision case? How does hundreds of billions of dollars come into the United States every year without detection? The answers to these questions and many more will surprise you. They are not in the History books although they should be. American Heart of Darkness Volume I explores the ugly side of America that has been hidden for far too long and it is literally killing us. This book is not for the reader looking for an uplifting story to escape everyday life for a few hours. It is for true patriots who are sick and tired of being lied to and stolen from. It is for those who know they need to do something but do not know where to start. It is for those who feel powerless and that America's problems are far too big for little ol me to handle. It is for those with the courage to go from darkness to light. As comedian and activist Dick Gregory once said, "If you been in the DARK for so long

LIGHT will hurt your eyes This book will hurt your eyes The reader will be shocked then angry then motivated and finally in the authors next two books empowered and liberated It is better to see where we are and where we need to go right now before it is too late Congratulations If you have read this far this book is probably for you Please keep in mind the universal truth that with any form of government the leaders only have the power that the people allow them have This was true in India when a little skinny guy named Gandhi with no money and only a rag wrapped around his middle took on the British Empire and won There is no question that the American people have the power to reclaim a government that is clearly not being run for them We have to empower ourselves to take this government back from only a handful of selfish and greedy individuals who have proven that they only care about making more and more money Let us all stop giving them the power that belongs to us Reading this book is a beginning and then we will talk about what to do about it in the authors next two books

Blood In, Blood Out Greg Stolze, 2024-10-11 Blood Calls to Blood Ever since his Embrace Duce Carter has been a firebrand among the Kindred of Chicago fanning the flames of revolution against the city's Prince and its hidebound elders But when Chicago's Carthians turn their backs on Duce in the wake of a brutal assassination attempt the only person he can turn to for help is none other than Persephone Moore the Prince's only child Is Persephone the friend she claims to be or is she an agent of the shadowy forces who are out to destroy Carter Blood In Blood Out is the second in a series of novels based on the wildly successful Vampire The Requiem and World of Darkness horror settings Swapping Lies! Marc A. Bringman, 2004 In a world where business ethics have taken a back seat to the pursuit of wealth and power and movements like political correctness have muzzled the fair exchange of ideas is it any wonder that the average employee views the workplace with suspicion and consequently checks their loyalties at the office door Dishonesty has crept into the workplace and undermined organizational performance Navigating this environment is a difficult task for employees and managers alike Swapping Lies takes the issue of deception in the workplace head on In a powerful blend of academic research common sense business advice and home spun tales the author presents a case for change In doing so he offers more than 80 Tips designed to help the reader navigate today's complex work environment In a refreshing change in presentation and style this author provides a third dimension in his footnotes In addition to a comprehensive list of references the author uses the footnote as a running commentary on the main text Much like an alter ego each footnote adds a deeper insight to both the subject at hand and the author himself All in all Swapping Lies is a real world view of today's organization and a no nonsense approach to effective organizational management
