## **Choros The Orchestrating Self:**

Choros Leonard Charles Feldstein, 1984      **Choros** Leonard C. Feldstein,      **The Dance of Being** Leonard Charles Feldstein, 1979 Now I continue the investigation begun in *Homo Quaerens* The Seeker and the Sought into the generic traits of persons from a philosophic point of view I treat such special topics of my method set forth in that book as bear upon the person's intrapersonal aspects namely his body and such of its functions as contribute to his preconscious acts In particular I deal with those aspects insofar as they may be construed as straining so to speak toward that self transcendence which culminates in the veridical person in effect strands of subpersonal events which contribute to and converge upon his consummate personhood In consequence I explore the ontology of the person under the perspective of his naturalistically interpreted makeup and I conceive my enterprise as propaedeutic to more generalized ontologic topics which I shall take up in subsequent books      **A Marriage of Philosophy and Music** Erich Welling, 2014-04 How to use philosophy and music to open your horizons and enjoy being yourself put theory to work and help you experience personal growth is discussed in *A Marriage of Philosophy and Music* It is all about after After having a liberal education you are comfortable in modern culture and after further education and becoming a specialist in some field you enjoy using your skills We learn the ideas and methods of many social cultures and our own chosen specialty but we often neglect the liberal art of disciplining and enjoying the ideas and methods of our own individuality This book offers a path toward the education of privacy with the key words being selection design and beauty The book relates five areas of general human interest spirituality philosophy science art and body awareness The interrelation is accomplished by using personal patterns of experience that are available from philosophy and music Because of the plurality of subject matters and methods used in philosophy and music their patterns of discipline are comparable to self discipline *A Marriage of Philosophy and Music* attempts to create a path in this direction because besides the enjoyment of social culture and personal skills there is enjoyment in being yourself which is a neglected liberal art      The Highroad Around Modernism Robert C. Neville, 1992-01-01 Discussions of modernism and postmodernism in philosophy and the arts are usually based on a narrow reading of the Western tradition and are not conscious of the narrowness The modern period beginning with the European Renaissance spawned many developments not just the modernist one in terms of which the tradition has been read From the standpoint of the highroad around modernism both modernism and post modernism look like nothing more than two late modern movements perhaps too preoccupied with themselves and their historical place to engage a swiftly changing world containing more than the Western tradition *The Highroad Around Modernism* develops and defends an explicitly non modernist and non postmodernist extension of modernity applicable to the problems of world wide cultural interactions      *Iris Exiled* Dennis Quinn, 2002-02-04 *Iris Exiled* is a critical history of wonder from the Bible and Homer to modern times Dennis Quinn examines the subject in relation to various disciplines and modes of discourse philosophy theology poetry art myth history rhetoric psychology education and

modern science Quinn shows that wonder originally seen as the principle of philosophy and poetry and as a passion essential to the highest order of education has been weakened by certain intellectual cultural and religious shifts during the past 600 years The history is synoptic in two senses of the word it is comprehensive but selective and illustrative not exhaustive Iris Exiled is presented from a single theoretical perspective that of the original understanding of wonder as developed and set forth by such authors as Plato Aristotle St Thomas Aquinas John Ruskin and Joseph Pieper as well as a host of other writers of all kinds and from all eras of western history

**John W. Thompson** Paul Weindling, 2010 John W Thompson Psychiatrist in the Shadow of the Holocaust is the biography of a doctor whose revulsion at Nazi human experiments prompted him to seek a humane basis for physician patient relations As a military scientific intelligence officer in 1945 Thompson was the first to name medical war crimes as a category for prosecution His investigations laid the groundwork for the Nuremberg medical trials and for the novel idea of informed consent Yet Thompson has remained a little known figure despite his many scientific literary and religious connections This book traces Thompson s life from his birth in Mexico through his studies at Stanford Edinburgh and Harvard and his service in the Canadian Air Force It reconstructs his therapeutic work with Unesco in Germany and his time as a Civil Rights activist in New York where he developed his concept of holistic medicine Thompson was close to authors like Auden and Spender and inspirational religious figures like Jean Vanier founder of L Arche He drew on ideas of Freud Jung and Buber The philosophical and religious dimensions of Thompson s response to Holocaust victims suffering are key to this study which cites accounts of psychiatrists students and patients who knew Thompson personally war crimes prosecution records and unpublished personal papers Paul Weindling is Wellcome Trust Research Professor at the Centre for Health Medicine and Society Past and Present Oxford Brookes University UK
