Heritage: British Choral Music from Parry to Dyson Stephen Town, 2016-04-15 The rehabilitation of British music began with Hubert Parry and Charles Villiers Stanford Ralph Vaughan Williams assisted in its emancipation from continental models while Gerald Finzi Edmund Rubbra and George Dyson flourished in its independence Stephen Town's survey of Choral Music of the English Musical Renaissance is rooted in close examination of selected works from these composers Town collates the substantial secondary literature on these composers and brings to bear his own study of the autograph manuscripts The latter form an unparalleled record of compositional process and shed new light on the compositions as they have come down to us in their published and recorded form This close study of the sources allows Town to identify for the first time instances of similarity and imitation continuities and connections between the works **Choir Stalls and their**

Workshops Willy Piron, Anja Seliger, 2017-11-06 Misericordia International was founded by Elaine C Block as an association dedicated to the study of choir stalls and their relation to other artistic manifestations during the Middle Ages and the dissemination of research From its beginnings Misericordia International has promoted a bi annual international conference as a place of scientific exchange among members of the research community interested in this topic from a multidisciplinary perspective The most recent conference was held from 23 to 26 June 2016 at the Ernst Moritz Arndt University in Greifswald Germany The theme of the conference was the workshop context of medieval choir stalls in its broadest sense Where the iconography of choir stalls has enjoyed a lot of attention from researchers the process and circumstances of the making of these complex objects have often been rather neglected Choir stalls were not produced by an individual artist but were created by a group of craftsmen This factor raises all kinds of questions The conference in Greifswald covered an obvious

need for research and therefore included much hitherto unknown research material and additional first results based on initial research In addition to questions about substantive and economic mechanisms of the production of choir stalls the conference dealt with basic knowledge of craftsmanship This publication presents the papers held at the conference and is divided into five thematic parts namely Workshop practices Early modern choir stalls Traditions or restart Stalls of stone A forgotten furniture Travelling craftsmen and Group of works Under the Sign of the Shield Froma I. Zeitlin, 2009-01-01 A study of the last drama of Aeschylus trilogy concerned with the fortunes of the house of Laius that ends with the story of Oedipus sons the enemy brothers who self destruct in mutual fratricide but thereby save the besieged city of Thebes The book's findings however far exceed these limits to explore the relationships between language and kinship as between family and city self and society and Greek ideas about the nature of human development and identity Davidson's Choral Cyclopædia, a comprehensive Collection of Hymns and Moral Songs, with music ... arranged in vocal score for four voices, by J. Brabham, etc George Henry Davidson, 1870 **The Voice of Chorus America**, 1996 **The Choir**, 1920
