Christ And The Hiddenness Of God:

Christ and the Hiddenness of God Don Cupitt, 1971 , **Why Hidden? Divine Hiddenness, Love and Revelation** Richard H. Corrigan, 2008-06-01 The purpose of this book is to outline the principal difficulties that the hiddenness of God poses and to offer solutions to the question of why God does not incontrovertibly and indubitably reveal His existence to everyone This concise book introduces the reader to the current debate about the issue of divine hiddenness The author critically assesses the views of many leading philosophers and proceeds to offer his own solutions and insights This is a book that will be of interest not only to the academic but also to anyone who has ever wondered why God does not simply make his existence known to everyone **HIDDENNESS OF GOD. MICHAEL. REA, *Divine Hiddenness*** Richard H. Corrigan, 2008-05-01 The purpose of this book is to outline the principal difficulties that the hiddenness of God poses and to offer solutions to the question of why God does not incontrovertibly and indubitably reveal His existence to everyone

The Church and the Problem of Divine Hiddenness Derek King, 2022-12-30 This book offers a theological and more specifically ecclesiological response to the philosophical problem of divine hiddenness It engages with philosopher J L Schellenberg s argument on hiddenness and sets out a theologically rich and fresh response drawing on the ecclesiological thought of Gregory of Nyssa With careful attention to Gregory s work the book shows how certain ecclesiological problems and themes are critical to the hiddenness argument It looks to the gathered church the church as the body of Christ and the scattered church the church as the image of God for relevance to the hiddenness problem The volume will be of interest to scholars of theology and philosophy particularly analytic theologians and philosophers of religion ***Why Does God Seem So Hidden?*** Joshua C. Waltman, 2023-04-06 Why does God seem so hidden obscure and silent Why doesn t he make himself known in a more explicit way to those who dispute his existence This line of questioning presents a perplexing conundrum for Christian theologians On the one hand Christians affirm that God s revelation of himself is sufficient but on the other hand it appears that some genuine seekers remain unconvinced of his existence In recent decades philosopher J L Schellenberg has proposed an argument for atheism that attempts to exploit this apparent contradiction This book offers a new take by approaching the conversation using a Trinitarian theological lens The character of Trinitarian love shapes the way God communicates in pursuit of relationships Namely God desires spiritually oriented communal divine human relationships and this endeavor necessarily entails hiddenness This work proposes five spiritual criteria that an individual must meet to be open to having a relationship with the triune God and these are the criteria that atheists have failed to consider Articulating these five is exactly what is needed to resolve the vexing theological puzzle of divine hiddenness **Luther's Theology of the Cross** Dennis Ngien, 2018-06-11 Luther was fundamentally a preacher pastor a care taker of souls whose ingenuity lies in his usage of the biblical message as a source of pastoral encouragement This book seeks to capture the often overlooked pastoral side of the Reformer through an examination of his sermons on John s gospel The sermons on John show the intrinsic

close and causal link between doctrine and consolation They are an exercise of his vocation as a pastor or more precisely as a theologian of the cross who seeks to inculcate the good news of justification by faith in his people leading them to experience it within the dialectic of law and gospel St John said Luther is the master in the article of justification Luther s theological method namely his theology of the cross permeates and governs the exposition of the text and all major themes of his theology Christology Trinity and soteriology appear in his exegesis of John *The God Who Hides* Daniel

Kooman,2024-11-25 It could be the quintessential argument of faith versus unbelief One soul sees the Almighty hand of their Maker in nearly everything while another misses His presence altogether From Bestselling author Daniel Kooman the author of *Breath of Life Three Breaths that Shaped Humanity* and *Sons of the Father* Isaiah 45 15 Truly You are a God who hides Himself O God of Israel our Savior God created the natural realm the thunder the lightning and the everyday noise It all continues to put out daily reminders of His creativity wonder and nature But if we are willing to step forward instead of backward when the lightning strikes and the thunder starts to roll we discover that He s actually present right within reach He is God with us The hiddenness of God invites us into the secret place If we choose to encounter Him in the place of intimate secrecy we encounter a God who once hidden becomes powerfully revealed Explore the stories of nine of the Bible s most beloved saints from the perspective of a God once hidden revealing His nature and love in brand new and powerful ways Chapter Outline 1 Moses Face to Face 2 Joshua How to Become Overflowing 3 David Prayer is Mightier than the Sword 4 Elijah The Man Who Ascended Before Christ 5 Elisha The Audacity of Asking for Double 6 Jonah You Can Run But You Can t Hide 7 Gideon Putting Out Your Fleece 8 Isaiah Take Me Into the Holy of Holies 9 Jeremiah Is Anything Too Difficult for God 10 Jesus The Hidden One Revealed Stir your faith in the Invisible One with this thought provoking visually arresting tale about the hiddenness of God *Hanging by a Promise* Joshua C. Miller,2015-02-13 Oswald Bayer is one of the most

important contemporary interpreters of Martin Luther and confessional Lutheran theologians As a Luther scholar Bayer has identified the precise reformational turning point in Luther s life and theology which is also the central point for a truly Lutheran theology the promise of a forgiving and justifying God preached in Jesus Christ As a Lutheran theologian Bayer stresses that this promise of God is the ultimate subject matter of all theology and that all other theological topics have the justifying promise of God as their basis and boundary *Hanging by a Promise* investigates how Bayer addresses Luther s topic of the hidden God a God of wrath who accomplishes everything from the standpoint of the justifying promise of God Luther s doctrine of the hidden God has been taken up discussed and interpreted by many in the modern Protestant theological tradition Yet Bayer addresses it in a way in which others before him have not Going beyond interpretation and evaluation Bayer actually makes use of Luther s hidden God in his own theology For Bayer the hidden God is the counterpoint to God s gracious promise given in the preached Christ a counterpoint that brings serious tension into the very heart of theology

This Earthly Life Matters Arnold A. van Ruler,2023-06-06 Arnold A van Ruler was one of the most original Dutch

Reformed theologians of the twentieth century Through the term re creation Dutch herschepping he offers a radical affirmation of God s sustained loyalty to that which is material bodily and earthly God s work of salvation and of consummation is necessary but then for the sake of creation The path that he followed was diametrically opposed to that of Karl Barth and is also distinct from that of Jürgen Moltmann who was influenced by Van Ruler As an early exponent of Christian ecotheology Van Ruler s oeuvre provides exceptionally rich resources for contemporary debates This volume offers an English translation of selected essays by Van Ruler on the themes of God creation providence humanity sin in this earthly life and animal protection It includes some famous essays for example on God and chaos the sunny side of sin joy as the fundamental Christian attitude to life and this earthly life The selection is based on volume 3 of the Dutch scholarly edition of Van Ruler s Collected Works published in 11 volumes Few of Van Ruler s texts are available in English so this volume provides a welcome addition

The Theology of Wolfhart Pannenberg Elgin Frank Tupper, 1974 Based on the author s thesis Southern Baptist Theological Seminary 1971

Theology and Ethics for the Public Church Samuel Yonas Deressa, Mary Sue Dreier, 2023-11-24 How might the Christian church effectively engage today s politically charged profit motivated world while remaining faithful to its biblical and theological roots The contributors in this book argue that public theology provides a promising pathway forward The public theology emerging from these pages has been influenced by the theological interests and commitments of Gary M Simpson Lutheran pastor and systematic theologian His approach to public theology is intersectional and global he artfully weaves together Lutheran theology and the civil society arena of Critical Social Theory These essays provide three angles of vision on faith active in twenty first century public contexts contextual ethical and theological While not mutually exclusive these distinct strands of thought engage and challenge the church to substantial reflection on the challenging and often bewildering circumstances of the twenty first century social world Some reflect on God s activity within particular global contexts others offer new perspectives on Lutheran confessional traditions still others step boldly into innovative theological assertions As the Christian church is ever forming and reforming this book urges it to grapple with the publicness of its timely and timeless mission

Divine Hiddenness and Human Reason J. L. Schellenberg, 2006 In this clearly written and tightly argued book J L Schellenberg addresses a fundamental yet neglected religious problem If there is a God he asks why is his existence not more obvious Traditionally theists have claimed that God is hidden in order to account for the fact that the evidence of his existence is as weak as it is Schellenberg maintains that given the understanding of God s moral character to which theists are committed this claim runs into serious difficulty There are grounds the author writes for thinking that the perfectly loving God of theism would not be hidden that such a God would put the fact of his existence beyond reasonable nonbelief Since reasonable nonbelief occurs Schellenberg argues it follows that there is here an argument of considerable force for atheism In developing his claim Schellenberg carefully examines the relevant views of such theists as Pascal Butler Kierkegaard Hick and others He clarifies their suggestions concerning Divine

hiddenness and shows how they fall short of providing a rebuttal for the argument he presents That argument he concludes poses a serious challenge to theism to which contemporary theists must seek to respond The first full length treatment of its topic Divine Hiddenness and Human Reason will be of interest to anyone who has sought to reach a conclusion as to God's existence and especially to theologians and philosophers of religion **Our Natural Knowledge of God** Ned

Wisniewski, 1990 Natural theology the claim that we come to know God through the natural world has persisted in the common understanding in spite of the fact that modern philosophy and even theology rejected it The author argues that the reason for this is that natural theology was taken to rest on abstract proof or subtle religious feelings when actually it stems from more ordinary experiences and practices common in our natural life He shows that even Kant and Barth the leading philosophical and theological opponents to natural theology opened the door for a more pragmatic appraisal of natural theology in their late work The author then shows how the common conviction that our natural life testifies to the reality of God arises inevitably and for good reason from natural practices propensities and the dispositions stemming from them The pragmatic natural theology which results is one neither Kant nor Barth need object to for it neither illegitimately extends our scientific knowledge of nature nor presumptuously legitimates Christian theology Common Places in Christian Theology

Mark C. Mattes, 2023-03-21 Common Places in Christian Theology invites readers to discover the rich and complex world of Christian theology Sponsored by the journal Lutheran Quarterly and written by some of the finest contemporary Lutheran theologians this collection of essays helps Christian teachers understand and explain the grammar and inner logic of faith Exploring everything from scriptural authority to salvation and justification and the last things these writers provide a unique and compelling introduction to Lutheran theology As you receive the essentials of each topic you will also consider contemporary concerns whether in theology or from the natural sciences social sciences political theories or hermeneutics Whether you are a seasoned preacher looking to sharpen your understanding of faith or a curious Christian seeking to better articulate your relationship with God Common Places in Christian Theology will challenge and inspire you to think through your faith and share it with others Divine Hiddenness Daniel Howard-Snyder, Paul Moser, 2002 A distinguished group of

philosophers of religion explore the question of divine hiddenness **Eberhard Jüngel and Existence** Deborah Casewell, 2021-05-30 This book interrogates the contemporary Lutheran theologian Eberhard Jüngel's theological anthropology arguing that Jüngel's thought can provide a model for theological engagement with philosophical accounts of existence Focusing on Jüngel's theology of existence the author explores the thought of philosophers including Heidegger and Hegel their influence on and application to his theology and argues that Jüngel's account of humanity should be seen as a response to atheistic existentialist accounts of existence In showing how Jüngel's theology is informed by and dependent on philosophical thought this book provides a new lens on the interplay between philosophy theology and religion in twentieth century German thought It will be of particular interest to researchers in philosophy theology and philosophy of religion
