Christ And Time The Primitive Christian Conception Of Time And History:

Christ and Time, 3rd Edition Oscar Cullmann, 2018-08-17 The object of the present work is to determine what is central in the Christian proclamation We are tempted to represent as the kernel or essence of this proclamation that which appeals to us personally and to consider as external and dispensable framework that which is strange to us It is due to the richness of the Christian message that the question as to the central element from which all the other features are to be explained arises at all and the endeavor to determine this central element must be designated the one great task of New Testament scholarship and perhaps of all Christian theology From the Foreword *Christ and Time* Oscar Cullmann, 1964 Christ and Time Oscar Cullmann, 1951 *Christ and Time*, 1967 Christ and Time ; the Primitive Christian Conception of Time and History Oscar Cullmann, 1975 **Christ and Time**, 1962 *Christ and Time* Oscar Cullmann, 1977-03-01 Christ and Time. The Primitive Christian Conception of Time and History. Translated ... by Floyd V. Filson Oscar Cullmann, Floyd Vivian Filson, 1951 *Christ and Time. The Primitive Christian Conception of Time and History. Revised Edition ... with a New Introductory Chapter. Translated ... by Floyd V. Filson* Oscar CULLMANN, Floyd Vivian Filson, 1962 The Formation of Christian Doctrine Malcolm B. Yarnell, 2007-11-01 The Formation of Christian Doctrine is an advanced academic study of how Christian doctrine develops distinguishing in particular between scholarly term inventio and less revelatory process of invention **A History of the Quests for the Historical Jesus, Volume 1** Colin Brown, Craig A. Evans, 2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today's biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer's famous Old Quest to today's ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One covers the period from the beginnings of Christianity to the end of World War II Volume Two sold separately covers the period from the post War era through contemporary debates **Development of the Idea of History in Antiquity** Gerald

A. Press, 2003-09-10 An extensive scholarly literature written in the past century holds that in ancient Greek and Roman thought history is understood as circular and repetitive a consequence of their anti temporal metaphysics in contrast with Judaeo Christian thought which sees history as linear and unique a consequence of their messianic and hence radically temporal theology Gerald Press presents a more general view that the Graeco Roman and Judaeo Christian cultures were fundamentally alien and opposed cultural forces and that therefore Christianity's victory over paganism included the replacement or supersession of one intellectual world by another and then shows that contrary to this view there was substantial continuity between pagan and Christian ideas of history in antiquity rather than a striking opposition between cyclic and linear patterns He finds that the foundation of the Christian view of history as goal directed lies in the rhetorical rather than the theological motives of early Christian writers **Arguing the Apocalypse** Stephen D. O'Leary, 1998

Armageddon and a map of millennial consciousness **The Forgotten God** Paul J. Achtemeier, A. Andrew Das, Frank J. Matera, 2002-01-01 This volume provides a comprehensive survey of the unity and diversity behind biblical conceptions of God This is accomplished by respecting the distinctive theology of each canonical book and by placing reflection about God in conversation with major themes of biblical theology Christology pneumatology anthropology Four essays examine the Old Testament images of God while ten essays address the way in which God is presented in the New Testament The volume is rounded off with an essay exploring biblical preaching about God **The Future of Open Theism** Richard Rice, 2020-04-28

Evangelical theology has grappled with open theism and its alternative doctrine of God for decades Richard Rice recounts the history of open theism from its antecedents and early developments to its more recent expressions considering how it might continue to develop in relation to several primary doctrines of the Christian faith **Time, Religion and History** William Gallois, 2014-06-11 What is time How does our sense of time lead us to approach the world How did the peoples of the past view time This book answers these questions through an investigation of the cultures of time in Christianity Islam Buddhism Judaism and the Australian Dreamtime It argues that our contemporary world is blind as to the significance and complexity of time preferring to believe that time is natural and unchanging This is of critical importance to historians since the base matter of their study is time yet there is almost no theoretical literature on time in history This book offers the first detailed historiographical study of the centrality of time to human cultures It sets out the complex ways in which ideas of time developed in the major world religions and the manner in which such conceptions led people both to live in ways very different to our contemporary world and to make very different kinds of histories It goes on to argue that modern scientific descriptions of time such as Einstein's Theory of Relativity lie much closer to the complex understandings of time in religions such as Christianity than they do to our common sense notions of time which are centred on progress through a past present and future **"A" History of the Jewish People in the Time of Jesus Christ** Emil Schürer, 1901 **The Greek and Hebrew Origins of Our Idea of History** Paul Merkley, 1987 **The Church of Tibet, and the Historical Analogies of**
