*Christenvolk* Lorenzo Cañas Bottos, 2005      **Old Colony Mennonites in Argentina and Bolivia** Lorenzo Cañas Bottos, 2008-01-31 This volume challenges received images of Old Colony Mennonites as living in the past or perfect examples of community Through the concept of the imagination of the future this book presents an analysis of their historical transformations as the result of attempting to apply in practice their Christian ideals of building a community of believers in the world while remaining separate from it It argues that while they contributed to the territorialisation of the states that hosted them through their migrations from sixteenth century Europe to late twentieth century Latin America they systematically rejected being incorporated into the nation through the building of a community of agricultural settlements that maintain ties across international borders It explores how these imaginations are maintained and transformed through the analysis of schisms conflict and border management together with a biographical approach to conversion narratives and the religious experience      **Permutations of Order** Thomas G. Kirsch, 2016-05-13 *Permutations of Order* makes an innovative and important contribution to current discussions about the relationship between religion and law bringing together theoretically informed case studies from different parts of the world relating to various types of politico legal settings and religions This volume also deals with contemporary legal religious transfigurations that involve permutations meaning that elements of legal and religious acts of ordering are at times repositioned within each realm and from one realm to the other These permutations of order in part result from the fact that in ethnographic settings like those examined here legal and religious realms are relational to and in certain cases even constitutive of each other and they result in categoric transpositions and new social positionalities through which among other things the legal and the religious are blended *Permutations of Order* is a work that transcends convention identifies new and theoretically overarching themes and will be of strong interest to researchers and policy makers seeking a comparative focus on the intersections and disjunctions of religion and law      **Political Transformation and National Identity Change** Jennifer Todd, Lorenzo Cañas Bottos, Nathalie Rougier, 2013-10-18 The major socio political changes of the last decades have led to changing ways of being national changes in the content of national identity if not in the national categories themselves This comparative social scientific volume takes examples of transitions to democracy East Europe Spain to peace South Africa Israel Northern Ireland and to territorial decentralization the United Kingdom France Spain showing in each case how socio political change and identity change have interlocked It defines a typology of national identity shift tracing the changing state forms which provoke national identity shift and analyzing the process of identity change its motivations and legitimations Collecting together a wide range of examples from South Africa to the Czech Republic from the Basque Country to the Mexican and Irish borders the book brings together an interdisciplinary group of scholars from world figures in the study of globalization and social identity to young researchers to provide a much needed theoretical clarification and empirical evidence of types of

national identity shift      **Cambridge Anthropology** ,2006      Catálogo a medida Librería García Cambeiro,2005  
    **Desarrollo económico** ,2006      **L@tbook Argentina** ,2005      **Old Colony Mennonites in Argentina and Bolivia**  
Lorenzo Cañas Bottos,2008 This volume examines the Old Colony Mennonites historical processes of transformation through  
the concept of the imagination of the future It casts a fresh perspective on a much misunderstood group by focusing on their  
contribution to state consolidation conflict schisms conversion and deviants      *Educating Anthropologists in the*  
*Contemporary World* Lorenzo Cañas Bottos,Jakob Krause-Jensen,Ioannis Manos,2026-05 Covering themes such as  
multimodal teaching research led learning and disciplinary boundaries the book offers new insights into the changing role of  
teaching within anthropology The volume positions anthropology education as a dynamic space of educational innovation  
where institutional constraints epistemological debates and pedagogical practice are reflected and actively reshaped
