China's Foreign Investment Law Amid Evolving International Investment Rules Qingjiang Kong, 2023-08-28 This book focuses on an article by article interpretation of the Foreign Investment Law of the People's Republic of China which was adopted on March 15 2019 It also describes the legislative process of the law and the relationship between the law and other laws and regulations It also includes a comparison of China's new foreign investment law with representative foreign

investment regimes and the interaction between China and evolving international investment rules and the law with a focus on the impact of evolving international investment rules on the development of China's foreign investment regime. In recent years the momentum of globalization has continued to grow and a pattern of economic governance with valorization, regionalization and benefit sharing has gradually emerged. Amid the emergence of new international investment rules, the Foreign Investment Law of the People's Republic of China adopted on March 15, 2019 has significantly changed the face of China's foreign investment regime. Given that China is a major destination for global foreign direct investment flows, its foreign investment regime is a focus of attention for international investors and international lawyers. This book aims to provide a practical legal guide for students of Chinese law, especially Chinese business law practitioners and their clients interested in the Chinese market and observers of international investment law and national investment law practice.

International Commercial Agreements and Electronic Commerce William F. Fox, 2018-03-26. Although negotiation still lies at the heart of international commercial agreements, much of the detail has migrated to the Internet and has become part of electronic commerce. This incomparable one-volume work, now in its sixth edition, with its deeply informed emphasis on both the face-to-face and electronic components of setting up and performing an international commercial agreement, stands alone among contract drafting guides and has proven its enduring worth. Following its established, highly practical format, the book's much-appreciated precise information on a wide variety of issues, including those pertaining to intellectual property, alternative dispute resolution, and regional differences, is of course still here in this new edition. There is new and updated material on such matters as the following: the need for contract drafters to understand and to use the concepts of standardization, i.e., the work of the International Organization for Standardization (ISO) as a contract drafting tool; new developments and technical progress in e-commerce; new developments in artificial intelligence in contract drafting; the possible use of electronic currencies such as Bitcoin as a payment device; foreign direct investment special considerations inherent in drafting licensing agreements; online dispute resolution, including the innovations referred to as the robot arbitrator; changes in the arbitration rules of major international organizations; and assessment of possible future trends in international commercial arrangements. Each chapter provides numerous references to additional sources, including a large number of websites. Materials from and citations to appropriate literature in languages other than English are also included. In its recognition that a business executive entering into an international commercial transaction is mainly interested in drafting an agreement that satisfies all of the parties and that will be performed as promised, this superb guide will immeasurably assist any lawyer or business executive to plan and carry out individual transactions, even when that person is not interested in a full-blown understanding of the entire landscape of international contracts. Business executives who are not lawyers will find that this book gives them the understanding and perspective necessary to work effectively with the legal experts. The Yale Journal of International Law, 1996. **Chinese Legal Reform** Yan Wang, 2003-08-29. This collection

assesses the legal developments which have taken place since the 1980s in China. It discusses China's achievements in building a new legal system and identifies the theoretical and institutional limitations of China's legal reform. Featuring an extensive case study of foreign investment law, this book considers a wide-ranging set of interconnecting variables in China's changing social context in order to examine and illustrate the gap between the text and actual practice of the law, especially as it relates to foreign direct investment. It will be of great interest to students and scholars of Chinese Law, Business and Economics as well as to business investors in China.

Chinese Law Deborah Cao, 2017-03-02

Studying Chinese law from a linguistic and communicative perspective, this book examines meaning and language in Chinese law. It investigates key notions and concepts of law, the rule of law and rights and their evolutionary meanings. It examines the linguistic usage and textual features in Chinese legal texts and legal translation and probes the lawmaking process and the Constitution as speech act and communicative action. Taking a cross-cultural approach, the book applies major Western philosophical thought to Chinese law, in particular the ideas concerning language and communication by such major thinkers as Peirce, Whorf, Gadamer, Habermas, Austin and Searle. The focus of the study is contemporary People's Republic of China; however, the study also traces and links the inherited and introduced cultural and linguistic values and configurations that provide the context in which modern Chinese law operates.

Foreign Direct Investment in China Chunlai Chen, 2011

For readers looking for a comprehensive, rigorously quantitative analysis of foreign direct investment (FDI) in China, there is no better work than Chunlai Chen's *Foreign Direct Investment in China*. In the book, he analyzes a wide range of issues ranging from the contribution of FDI to China's growth to why FDI is concentrated in certain Chinese provinces and not others. Readers with an economics or statistical background will get the most out of the book, but it is accessible and informative for many others.

Dwight H. Perkins, Harvard University

US Foreign Direct Investment in China is one of the most comprehensive studies of FDI in China and provides a remarkable background of information on the evolution of China's FDI policies over the last 30 years. Chunlai Chen presents a compelling and thorough analysis of the leading theoretical explanations of FDI and a series of rigorous empirical examinations of the location determinants of FDI. He examines a comprehensive analysis of the differences in investment and production behaviour between the major investors as well as an in-depth investigation of the impacts of FDI on China's economy. This book is a highly focused and unique work of theoretical analysis and empirical study of FDI in China. It is a valuable and important reference for scholars and students who are interested in FDI in general and in Chinese economic studies in particular.

China and US Foreign Investment Laws and Practices Liu Ziyu, 2024-11-08

The book is a comparative study of the national security review of foreign investment laws in China and the US. The author establishes a theoretical framework to explain the dominant role of ideas on national security and foreign investment rooted in China and the US as well as the oriented role of China-US investment interaction. She concludes that it is difficult for China and the US to reach a consensus on national security review due to their different internal ideas on national security and foreign

investment By comparing the similarities and differences in the development of national security review in China and the US she also proposes a feasible approach to facilitate bilateral investment practices The book will attract scholars of international economic law investment law and Sino US relations **Northwestern Journal of International Law & Business** ,2005 **China Policy** Richard E. Edwards,1995 *Current Law Index* ,2002 Foreign Direct Investment in China Wenhui Wei,2004 **Recent Acquisitions** Ohio State University. College of Law. Library,1995 **An Annotated Bibliography on Legal and Law-related Materials of the People's Republic of China** Xia Chen,1995 Effects of Trade Liberalization on Agriculture in China Jikun Huang,1999 *The transnational lawyer* ,1995 *Law Books Published* ,1994 Chinese Banking Law and Foreign Financial Institutions Zhongfei Zhou,2001-03-12 If China is to develop a modern and viable banking sector it needs to put in place a suitable legal infrastructure which is consistent with emerging international supervisory standards WTO requirements and aspirations for financial sector liberalisation The author argues that current foreign banking laws are fundamentally out of line with international standards and practices and that legislators and supervisors do not appreciate or cultivate commonly accepted supervisory values This book proposes a set of reforms that would at the same time create a legal environment for competitive equality between foreign banks and protect the Chinese banking system The issues considered include the licensing process for the entry of foreign banks into the Chinese market the ongoing regulation of foreign banks and foreign bank crisis management or bank failure resolution The author offers a proposed framework of Chinese foreign banking law which should be of great benefit to existing and prospective foreign banks in China *Selected Acquisitions* Robert Crown Law Library,1994
