Chinese Painting The Complete Self Tutor:

The Materials and Techniques of Medieval Painting Daniel V. Thompson, 2012-05-11 Medieval painters built up a tremendous range of technical resources for obtaining brilliance and permanence In this volume an internationally known authority on medieval paint technology describes these often jealously guarded recipes lists of materials and processes Based upon years of study of medieval manuscripts and enlarged by laboratory analysis of medieval paintings this book discusses carriers and grounds binding media pigments coloring materials and metals used in painting It describes the surfaces that the medieval artist painted upon detailing their preparation It analyzes binding media discussing relative merits of glair versus gums oil glazes and other matters It tells how the masters obtained their colors how they processed them and how they applied them It tells how metals were prepared for use in painting how gold powders and leaf were laid on and dozens of other techniques Simply written easy to read this book will be invaluable to art historians students of medieval painting and civilization and historians of culture Although it contains few fully developed recipes it will interest any practicing artist with its discussion of methods of brightening colors and assuring permanence A rich feast The Times London Enables the connoisseur artist and collector to obtain the distilled essence of Thompson s researches in an easily read and simple form Nature London A mine of technical information for the artist Saturday Review of Literature

Abstraction in Art and Nature Nathan Cabot Hale, 2012-06-19 In this stimulating thought provoking guide a noted sculptor and teacher demonstrates how to discover a rich new design source in the abstractions inherent in natural forms Through systematic study of such properties as line form shape mass pattern light and dark space proportion scale perspective and color as they appear in nature students can learn to utilize the infinite variety and diversity of those elements as a wellspring of creative abstraction The author invites students to learn the necessary techniques through a series of projects devoted to exploring and drawing plants animals birds landscapes seascapes skies and more Lines of growth and structure water and liquid forms weather and atmospheric patterns luminosity in plants and animals earth colors and lightning are among the sources of abstraction available to the artist who is aware of them This book will train you to see and use these elements and many more An intriguing blend of art psychology and the natural sciences Abstraction in Art and Nature is profusely illustrated with over 370 photographs scientific illustrations diagrams and reproductions of works by the great masters It not only offers a mind stretching new way of learning and teaching basic design but deepens our awareness of the natural environment In short Mr Hale s book is an indispensable guide that artists teachers and students will want to have close at hand for instruction inspiration and practical guidance
