found some joints in the armor Even after the opium war China was largely a terra incognita and remained almost as a sealed book until the treaty of Nankin To some an awakened China is fraught with danger to the rest of the world Anything great and dimly known is likely to excite fear So the Yellow Terror is the legitimate child of the Yellow Mystery About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

A Day in a Working Life Gary Westfahl, 2015-04-21 Ideal for high school and college students studying history through the everyday lives of men and women this book offers intriguing information about the jobs that people have held from ancient times to the 21st century This unique book provides detailed studies of more than 300 occupations as they were practiced in 21 historical time periods ranging from prehistory to the present day Each profession is examined in a compelling essay that is specifically written to inform readers about career choices in different times and cultures and is accompanied by a bibliography of additional sources of information sidebars that relate historical issues to present day concerns as well as related historical documents Readers of this work will learn what each profession entailed or entails on a daily basis how one gained entry to the vocation training methods and typical compensation levels for the job The book provides sufficient specific detail to convey a comprehensive understanding of the experiences benefits and downsides of a given profession Selected accompanying documents further bring history to life by offering honest testimonies from people who actually worked in these occupations or interacted with those in that field **Chinese History and Literature** J. Prusek, 2012-12-06

The studies contained in this volume arose over the last thirty years Originally the range of the materials I intended to include in my selection was very much wider Publishing difficulties however have obliged me to curtail them to something less than half the planned content At first I intended to include all the studies I supposed might be of interest to readers and represent contributions still of some significance for research in this domain of Oriental scholarship When the necessity arose to limit the contents I gave preference to the standpoint of thematic completeness rather than to what would be of interest to the general reader Thus in this volume I have confined myself to two thematic fields only Old Chinese literature and studies dealing with mediaeval storytellers productions *hua pen* I have excluded the whole complex of historical studies and all studies relating to the new literature I am now preparing on the principal historical theme on which I was engaged already in the period of my studies in Prague under Prof J Bidlo and then in 1928 till 1930 with Prof B Karlgren in Sweden and Prof G Haloun in Halle in Germany a more compendious study in which I hope to sum up the results of my research and I also intend to publish a volume of selected studies dealing with the New Chinese literature at some later date □□ : □□□□□□

□□□ Vibeke Børdahl, Liangyan Ge, □□□, 2017 This mammoth study is a major contribution to the study of Chinese literature making available to scholars a genuine storyteller's script from China's Yangzhou oral tradition dated to the late Qing period 1880-1910. This rare script is published in its complete form all 367 pages both in facsimile and transcription with an English translation also made. Its publication is of high importance not only to preserve knowledge about one of the famous oral traditions of China but also as a unique documentation of the interplay between orality and literacy in Chinese storytelling. The book is also the first translation into a European language of the popular Western Han narrative one of a corpus of Chinese semi-historical romances brought to life in recent decades after the discovery in 1974 of the terracotta army commemorating the life and achievements of the first Chinese emperor. Moreover, this storyteller's version is unique and entertaining. The work is an ideal classroom book for students studying Chinese history, literature, oral literature, storytelling, etc.
