## **Chirico The New Metaphysics:**

*De Chirico* Maurizio Calvesi, 1996      *De Chirico : the New Metaphysics* Giorgio De Chirici, 1996      **De Chirico** Giorgio De Chirico, 1996 Giorgio de Chirico 1888 1978 is widely regarded as one of the masters of 20th century art The originator of Metaphysical Painting and precursor of the Surrealists de Chirico was born in Volos Greece studied at the Academy of Fine Arts in Munich and was initially influenced by Bocklin and Klinger However he soon developed his own distinctive style producing the first of his enigmatic paintings in Italy around 1910 De Chirico s early works evoked an uneasy atmosphere through their use of strange perspectives illogical shadows and open spaces and he developed a theory of metaphysical insight which located familiar objects in essentially mysterious relationships In de Chirico s oeuvre a naturalistic vision always alternates like waking and sleeping or dreaming with another vision presenting abnormal forms and situations If de Chirico s first period of Metaphysical painting between 1910 and 1918 remains his most celebrated and has provided us with some of his most memorable images it is also true that his later Metaphysical period was also a time of intense creativity and evocative art making But this period is his least well known De Chirico moved on from his baroque and romantic paintings of the Forties and Fifties works which diminished his standing among a number of art critics to a new Metaphysical period which related strongly to the rich early phase of his work This book is a celebration of that period in de Chirico s career and evaluates not only his paintings but also the mythic and symbolic sculptures produced at this time *De Chirico The New Metaphysics* is an essential resource for any reader interested in appreciating de Chirico s unique contribution to 20th century art      **Italian Modernism** Luca Somigli, Mario Moroni, 2004-12-15 Italian Modernism was written in response to the need for an historiographic and theoretical reconsideration of the concepts of Decadentismo and the avant garde within the Italian critical tradition Focussing on the confrontation between these concepts and the broader notion of international modernism the essays in this important collection seek to understand this complex phase of literary and artistic practices as a response to the epistemes of philosophical and scientific modernity at the end of the nineteenth century and in the first three decades of the twentieth Intellectually provocative this collection is the first attempt in the field of Italian Studies at a comprehensive account of Italian literary modernism Each contributor documents how previous critical categories employed to account for the literary artistic and cultural experiences of the period have provided only partial and inadequate descriptions preventing a fuller understanding of the complexities and the interrelations among the cultural phenomena of the time Electronic Format Disclaimer Images removed at the request of the rights holder      *Interpreting Urban Spaces in Italian Cultures* Andrea Scapolo, Angela Porcarelli, 2025-10-01 Made up of both material and symbolic elements the urban space is always dynamic and transitional it brings together or separates the past and the present the public and the private the center and the periphery The present volume focuses on the interaction between the social processes and spatial forms that shape the identity of Italian cities Using both canonical and less well known texts along with cultural artifacts the essays

in the volume deprovincialize the Italian city interpreting the material and symbolic practices that have made it into a unique entity whose enduring influence extends far outside Italy *Encyclopedia of Contemporary Italian Culture* Gino Moliterno, 2023-06-14 This rigorously compiled A Z volume offers rich readable coverage of the diverse forms of post 1945 Italian culture With over 900 entries by international contributors this volume is genuinely interdisciplinary in character treating traditional political economic and legal concerns with a particular emphasis on neglected areas of popular culture Entries range from short definitions histories or biographies to longer overviews covering themes movements institutions and personalities from advertising to fascism and Pirelli to Zeffirelli The Encyclopedia aims to inform and inspire both teachers and students in the following fields Italian language and literature Arts Humanities and Social Sciences European Studies Media and Cultural Studies Business and Management Art and Design It is extensively cross referenced has a thematic contents list and suggestions for further reading

**Cultural Landscapes** Gabriel R. Ricci, A dualism between man and nature has been a persistent feature of Western thought and spirituality from ancient times to the present The opposition of mind and body consciousness and world has tended to obscure the ways in which humans are ecologically part of interconnected systems some of which are obvious while others operate in hidden but life sustaining ways Cultural Landscapes explores the physical ways in which we are intimately linked to the land and the intellectual and aesthetic connections human consciousness has with the landscape Following the editor's introductory essay the lead article by Jame Schaeffer Quest for the Common Good A Collaborative Public Theology for a Life Sustaining Climate assesses the lightning rod issue of global warming in the context of a public and ecumenical theology and sets the tone for this normative assessment of our relationship with nature Likewise David Kenley's essay Three Gorges be Dammed The Philosophical Roots of Environmentalism in China reveals the traditional philosophical and cultural values that can sustain a vital environmentalism in the East David Brown's historical insights into the use of the American landscape to define historical writing complement Patricia Likos Ricci's historical treatment of nineteenth century landscape painting and the first call to preserve wilderness in the United States Matt Willen An Feochn and David Martinez What Worlds are Made of The Lakota Sense of Place both demonstrate how space is transformed into place through song and mythic tales On a metaphysical note Andreas Philippopoulos Mihalopolos essay On the Line of the Horizon Anxiety in de Chirico's Metaphysical Spaces provides the reader with psychological and existential insights into the disorienting paintings of de Chirico and Gabriel Ricci's concluding essay tours the landscape that underpins Heidegger's ontological speculations The contributions to this volume are posited on the belief that culture society and human history are ultimately rooted in the natural world This integration may explain why humanity has always looked to nature for moral and ethical guidelines Gabriel R Ricci is associate professor

of humanities and the chair of the Department of History at Elizabethtown College in Pennsylvania He is the author of *Time Consciousness The Philosophical Uses of History* published by Transaction *Theatre And The Visual Arts* Giuliana Sanguinetti Katz,Vera Golini,Domenico Pietropaolo,2001-12 Giorgio de Chirico Giorgio De Chirico,Robert Miller Gallery (New York, N.Y.),1984 **Metaphysics of Silence** Lucio Giuliodori,2019-06-25 Many are the philosophical implications which enfold De Chirico s Metaphysical art Therefore the viewer is inevitably involved in what we could define as a metaphysical journey where thinkers such as Nietzsche and Schopenhauer are essential pillars Through his unsettling uncanny beautiful art De Chirico aspires to unveil the secret essence of things concealed behind the surface accessible to us through the senses To this regard his art is utterly philosophical his pictures are investigations of the unknown they don t describe they inquire and by doing this they floor us as they dwell on that mysterious yet familiar limbo sited between ordinary and extraordinary reality logic and absurd physics and metaphysics If surrealists were focused on what dwelled within De Chirico was totally concerned about the perceivable world too easy spotting an enigma in the world of dreams even banal much more intriguing on a philosophical level is trying to depict it on the things we look at with our own eyes The Italian artist managed to do this in a wonderful way and this book concerns the marvellous path he undertook underpinned on a constant powerful extraordinary combination of art and knowledge De Chirico Paolo Baldacci,Giorgio De Chirico,1997 The self named metaphysical painting of early 20th century painter Giorgio de Chirico continues to haunt modern art Paolo Baldacci s long awaited monograph follows de Chirico and his work from his birth through his student years in Paris to his return to Italy Baldacci details the development of de Chirico s mature style and reveals the many biographical elements of his paintings 250 color and 150 b w illustrations Movements in Painting Patricia Fride-Carrassat,Isabelle Marcadé,2005 Concise and authoritative guide to the history and development of Western painting from the 15th century to the present day Covers movements from the Renaissance to the Young British Artists including Baroque Orientalism Action Painting and Graffiti Art Focuses on the context style and key practitioners of each movement
