Choice Of Crimes:

A Selection of Cases and Other Authorities Upon Criminal Law Joseph Henry Beale, 1915 **Choice**, 1997 **Hate Crimes** Barbara Perry, 2009-03-05 This book offers a comprehensive approach to understanding hate crime its causes consequences prevention and prosecution Hate crimes continue to be a pervasive problem in the United States The murder of Matthew Shepard the lynching of James Byrd the murderous rampage of Benjamin Smith and anti Muslim violence remind us that incidence of deadly bigotry is not only a recurring chapter in U S history but also a part of our present day world Contrary to common belief hate mongers who commit crimes are rarely members of the Ku Klux Klan or a skinhead group In fact fewer than 5 percent of identifiable offenders are members of organized hate groups Yet rather than being an individual crime hate crime represents an assault against all members of stigmatized and marginalized communities To fully understand the phenomenon of hate crime and reduce its incidence it is necessary to clearly define the term itself to examine the victims and the offenders and to evaluate the consequences and harms of hate crimes This comprehensive five volume set carefully addresses the disturbing variety and incidence of hate crimes exposing their impacts on the broader realms of crime punishment individual communities and society The contributing authors and editors pay critical attention to cutting edge topics such as online hate crimes hate based music anti Latino hostilities Islamophobia hate crimes in the War on Terror school based anti hate initiatives and more The final volume of Hate Crimes provides valuable food for thought on possible legislative educational social policy or community organizational responses to the varied forms of hate crime Policing and Crime Control in Post-apartheid South Africa Anne-Marie Singh, 2016-04-22 Once a marginal political issue crime control now occupies a central place on the social political and economic agenda of contemporary liberal democracies Nowhere more so than in post apartheid South Africa where the transition from apartheid rule to democratic rule was marked by a shift in concern from political to criminal violence In this book Anne Marie Singh offers a comprehensive account of policing transformations in post apartheid South Africa Her analysis of crime and mechanisms for its control is linked to an analysis of neo liberal policies providing the basis for a critique of existing analyses of liberal democratic governance Themes addressed in the book include the exercise of coercive authority state and non state expertise in policing the rationally choosing criminal and the importance of developing an active and responsible citizenship *Rational Choice and Situational Crime Prevention* Graeme Newman, Ronald V. Clarke, 2016-12-05 A collection of original papers examining the theoretical and philosophical bases of the perspective of situational crime prevention Among issues examined are the status of situational crime prevention as a theory the theoretical traditions and context of SCP the relationship of rational choice to SCP utilitarianism and SCP and the ethical policy implications of SCP **21st Century Criminology: A Reference Handbook** J.
