Safer Pest Control

Did you know?

The toxic chemicals in pesticides can harm human beings. Since pests can also affect health, it is important to get rid of pests safely!

Action Plan

Prevent pests without toxic chemicals:

- Eliminate water sources by fixing leaks and cleaning up spills.
- Eliminate food sources by removing crumbs, sealing food containers, and emptying trash.
- Eliminate places where pests may hide by removing clutter.
- Get rid of their entry points. Seal cracks with caulk and put steel wool in holes at entry points in your home (pipes and utilities).
- Hire an integrated pest management (IPM) operator in PA.

If you must use chemical pesticides:

- Place bait stations in areas inaccessible to children and pets.
- Choose pesticides with an EPA "Safer Choice" label.
- Avoid sprays but when absolutely necessary target areas where pests hide. Ventilate your home by opening windows. Keep children and pets away until completely dry or longer as directed by pesticide application instructions.
- Never use foggers, or bug bombs. These can be very hazardous to children and pets.
