Kalson, 1993 In *Laughter in the Dark* a comprehensive study of the plays of Alan Ayckbourn Britain's most prolific contemporary dramatist Albert E Kalson demonstrates that a recurring character is a development of the persona of the author himself The protagonist with a divided personality in Ayckbourn's first play *The Square Cat* a reluctant rock star who longs for a conventional life splits into opposing characters in his later works In the recent *The Revenger's Comedies* a man sharing his author's offstage diffidence finds himself in the control of a flamboyant woman who is as Ayckbourn himself has been both performer and director as she manipulates her way to the top of a multinational corporation mirroring the Britain of the Thatcher years Once considered a mere farceur Ayckbourn has won critical respect as his plays reflect the breakdown of self family and community The moving portrait of a woman on the brink of insanity in *Just Between Ourselves* is a development of *The Square Cat*'s dissatisfied housewife who reemerges as the giddily bewildered wife of a philandering husband in the delightfully frothy *Relatively Speaking* Madness is more fully more darkly etched in *Woman in Mind* and leads to the more disturbing madness of the world at large in *The Revenger's Comedies* even to that of the universe itself in *Wildest Dreams* Ayckbourn has explored the encroachment of evil within the social and political contexts of *Way Upstream* *A Small Family Business* and *Man of the Moment* and his nightmare vision of the future in *Henceforward* seems uncomfortably close to the contemporary automated world in which man is replaced by machine Kalson

explores what he calls the Ayckbourn A effect Like Bertolt Brecht s Verfremdungseffekt Ayckbourn s method insists on an audience s awareness of the actor at once as character and performer but unlike Brecht s didactic works aimed at rousing an audience to action Ayckbourn uses his A effect to heighten an audience s exhilaration Laughter he knows does not preclude the engagement of the mind Brecht distances his audiences by suggesting unperformed alternate possibilities Ayckbourn engages his audience by providing those alternates In *How the Other Half Loves* the overlapping of time and place provides a telling commentary on Britain s class structure The technique leads Ayckbourn to expand the limits of theatrical presentation even further with alternate scenes in *Sisterly Feelings* even alternate plays in *The Norman Conquests* climaxing with *Intimate Exchanges* an extraordinary work for two performers that moves in sixteen directions stemming from a woman s seemingly trivial decision whether to have or not to have a cigarette The role in our lives of chance and or choice is a recurring concern for a playwright who never loses sight of his primary function to entertain his audience Remarkably as Ayckbourn s plays darken that audience continues to roar with laughter but after the laughter comes a contemplation of a less than perfect world
