Christian And Crime:

The Devil You Know Elicka Peterson Sparks, 2016-02-23 In this trenchant examination of Christianity's dark side a criminologist argues persuasively that high rates of violent crime in the United States can be correlated with Christian conservative attitudes especially in regard to social mores and politics Of particular concern is Christian nationalism Supporters of this movement argue that America was founded as a Christian nation and they work to install their fundamentalist brand of Christianity as the dominant factor in American political and social life Far from being a fanatic outlier sect this group is shown to have significant cultural influence especially in the American South Not coincidentally the author suggests the South also has the highest homicide rates Noting the violent biblical passages often cited by religious conservatives their sense of righteousness their dogmatic mindset that tolerates no dissent and their support for harshly punitive measures toward sinners Peterson Sparks shows that their worldview is the ideal seedbed for violence Not only does this mindset make violent reactions in interpersonal conflicts more likely the author says but it exacerbates the problems of the criminal justice system by advocating policies that create high incarceration rates The author also devotes particular attention to the victimization of women children and LGBT people which follows from this rigid belief system While not resorting to a blanket condemnation of Christianity or religion as a whole Peterson Sparks issues a wake up call regarding conservative Christianity's toxic mixture of fundamentalism authoritarian politics patriotism and retributory justice More God, Less Crime Byron Johnson, 2011-05-15 In More God Less Crime renowned criminologist Byron R Johnson proves that religion can be a powerful antidote to crime The book describes how faith communities congregations and faith based organizations are essential in forming partnerships necessary to provide the human and spiritual capital to effectively address crime offender rehabilitation and the substantial aftercare problems facing former prisoners There is scattered research literature on religion and crime but until now there has never been one publication that systematically and rigorously analyzes what we know from this largely overlooked body of research in a lay friendly format The data shows that when compared to current strategies faith based approaches to crime prevention bring added value in targeting those factors known to cause crime poverty lack of education and unemployment In an age of limited fiscal resources Americans can't afford a criminal justice system that turns its nose up at volunteer efforts that could not only work better than the abysmal status quo but also save billions of dollars at the same time This book provides readers with practical insights and recommendations for a faith based response that could do just that Christianity and Criminal Law Mark Hill, Norman Doe, R. H. Helmholz, John Witte, Jr, 2020 This collection by leading legal scholars judges and practitioners together with theologians and church historians presents historical theological philosophical and legal perspectives on Christianity and criminal law Following a Preface by Lord Judge formerly Lord Chief Justice of England and Wales and an introductory chapter the book is divided into four thematic sections Part I addresses the historical contributions of Christianity to criminal

law drawing on biblical sources early church fathers and canonists as far as the Enlightenment Part II titled Christianity and the principles of criminal law compares crime and sin examines concepts of mens rea and intention and considers the virtue of due process within criminal justice Part III looks at Christianity and criminal offences considering their Christian origins and continuing relevance for several basic crimes that every legal system prohibits Finally in Part IV the authors consider Christianity and the enforcement of criminal law looking at defences punishment and forgiveness The book will be an invaluable resource for students and academics working in the areas of Law and Religion Legal Philosophy and Theology

Christian Faith and Criminal Justice Gerald Austin McHugh,1978 *Christian Criminals* Chris Shimboff,2020-08-18 John Burton is a Christian man who lives for the Lord and works developing software He has an average house and an average life but he s humble and living for God is the most important Suddenly life is changed and his faith is shaken to the core as he navigates a new world a world where freedom of religion and First Amendment rights are abolished Rioting and crime are now a new way of life as he tries to keep his family safe while at the same time struggles to hold on to his faith John his wife and two kids find themselves on the wrong end of the law as they fight to keep their faith Winding up in a town they know nothing about and meeting new people they fight desperately to make it to whatever conclusion the Lord has for them

Christianity and the Criminal Henry Codman Potter,1883 **Crime, Jews and News** Dan Vyleta,2007 Examines the discourse in the press on Jewish crime at the turn of the 19th century in an epoch when criminal and court room reports became very popular and attracted a wide audience The period 1895 1914 was marked by the development of criminal science which attempted to find psychological and physical abnormalities identifying the born criminal and by a rise in racist antisemitism Theories of a Jewish propensity to crime were circulated Remarkably racial antisemitism affected the press accounts on Jewish criminals or Jewish accomplices defense attorneys etc of non Jewish criminals only to a small degree Of all the antisemitic narratives on Jewish criminality the antisemitic press used mainly the image of the Jew as a rational and cunning criminal actor coolly acting out a crime that was collective and conspiratorial in nature Even when reporting on sexual crimes and white slave trafficking the papers never stressed sexual motives of Jewish defendants but only their callous greed Dwells on the ritual murder trial of Hilsner in Bohemia and shows the extent to which the perception of this case and even the course of the trial were affected by the press The reports of the antisemitic press on Jewish criminality was intended for antisemitic believers and did not affect non antisemites however this press had a great number of readers In the Nazi period the narrative on Jewish criminality acquired blatantly racial motifs **Crime and Forgiveness** Adriano

Prosperi,2020 A provocative analysis of how Christianity helped legitimize the death penalty in early modern Europe then throughout the Christian world by turning execution into a great cathartic public ritual and the condemned into a Christ like figure who accepts death to save humanity The public execution of criminals has been a common practice ever since ancient times In this wide ranging investigation of the death penalty in Europe from the fourteenth to the eighteenth century noted

Italian historian Adriano Prosperi identifies a crucial period when legal concepts of vengeance and justice merged with Christian beliefs in repentance and forgiveness. Crime and Forgiveness begins with late antiquity but comes into sharp focus in fourteenth century Italy with the work of the Confraternities of Mercy which offered Christian comfort to the condemned and were for centuries responsible for burying the dead. Under the brotherhoods influence the ritual of public execution became Christianized and the doomed person became a symbol of the fallen human condition. Because the time of death was known this ideal sinner could be comforted and prepared for the next life through confession and repentance. In return the community bearing witness to the execution offered forgiveness and a Christian burial. No longer facing eternal condemnation the criminal in turn publicly forgave the executioner and the death provided a moral lesson to the community. Over time as the practice of Christian comfort spread across Europe it offered political authorities an opportunity to legitimize the death penalty and encode into law the right to kill and exact vengeance. But the contradictions created by Christianity's central role in executions did not dissipate and squaring the emotions and values surrounding state sanctioned executions was not simple then or now.

Crime, Jews and News Daniel Mark Vyleta, 2007-01-01 Crimes committed by Jews especially ritual murders have long been favorite targets in the antisemitic press. This book investigates popular and scientific conceptualizations of criminals current in Austria and Germany at the turn of the last century and compares these to those in the contemporary antisemitic discourse. It challenges received historiographic assumptions about the centrality of criminal bodies and psyches in late nineteenth and early twentieth century criminology and argues that contemporary antisemitic narratives constructed Jewish criminality not as a biológico racial defect but rather as a coolly manipulative force that aimed at the deliberate destruction of the basis of society itself. Through the lens of criminality this book provides new insight into the spread and nature of antisemitism in Austria Hungary around 1900. The book also provides a re evaluation of the phenomenon of modern Ritual Murder Trials by placing them into the context of wider narratives of Jewish crime.

Against the Death Penalty Gardner C. Hanks, 1997 Drawing on Old and New Testament resources as well as secular arguments Gardner C Hanks shows that the death penalty harms rather than helps any quest for a just humane society. He demonstrates through research data that the death penalty is an ineffective crime fighting tool.

Beyond Retribution Christopher D. Marshall, 2001 Recently a growing number of Christians have actively promoted the concept of restorative justice and attempted to develop programs for dealing with crime based on restorative principles. But is this approach truly consistent with the teaching of Scripture? To date very little has been done to test this claim. Beyond Retribution fills a gap by plumbing the New Testament on the topics of crime justice and punishment. Christopher Marshall first explores the problems involved in applying ethical teachings from the New Testament to mainstream society. He then surveys the extent to which the New Testament addresses criminal justice issues looking in particular at the concept of the justice of God in the teachings of Paul and Jesus. He also examines the topic of punishment reviewing the debate in social thinking over the ethics and purpose of

punishment including capital punishment and he advocates a new concept of restorative punishment The result of this engaging work is a biblically based challenge to imitate the way of Christ in dealing with both victims and offenders

Christianity Hazrat Mirza Tahir Ahmad, 2021-10-14 The doctrine of Christianity has acquired its present shape through a process of change that is spread nearly over its entire history Rather than venture into the endless debate on the course of this evolutionary process the author has chosen to examine the current Christian beliefs primarily on the basis of logic and reason Among others the subject of Sonship of Jesus Christ Atonement Trinity and the second coming of the Messiah have been discussed at length in this book *Religion, Faith and Crime* Kim Sadique, Perry Stanislas, 2016-05-28 This unique collection brings together international contributors from a range of disciplines to explore crime and responses to crime through a religious faith based lens At a time when religion is under the media spotlight in terms of religiously motivated hate crime terrorism and child abuse this book provides an important platform for academic debate It examines these and other key issues including faith as a coping strategy religion as a motivating factor and the role of religion and morality in shaping criminal justice responses This collection clearly places religion faith at the heart of criminological enquiry and illustrates its relevance in addressing wider social issues and would be of benefit to students and academics researching or studying in these areas It will also be of interest to community and criminal justice practitioners and those with an interest in community engagement and multi faith work *Christianity in a Different Light - Vol. 1* Maanoj Rakhit, 2004-03-22 Auditing and Reinterpreting Religion History and Current Events
