How to Enhance Learning Efficiency When Online Learning is Popular and Indispensable: Theory, Research and Practice Rong Lian, Chang Liu, Juzhe Xi, 2024-07-17

Online learning has become more and more common globally whether for comfort adapting to work hours or just having the freedom to study from anywhere And now under the coronavirus pandemic as people are having to stay at home it has become more important than ever Although the popularity of wireless network and portable smart device makes it possible for people to acquire and learn knowledge anytime and anywhere it does not necessarily mean an increased learning performance Relevant research in cognitive science has revealed possible limitations in online learning For example the

knowledge acquired through online learning tends to be fragmented and lacks guidance for integrated thinking among different subjects which makes it difficult for learners to form a systematic knowledge structure. Learners may experience cognitive overload, metacognitive illusion and low learning efficiency in self-regulated learning. It follows that in the post-COVID 19 era, online learning puts forward new requirements and challenges to contemporary students not only to their learning strategies but positive character traits in learning. Most of the current learning theories were developed in the early 20th century and may not fit in well with the current situation, then possibly leading to inefficient learning and increased learning burden. Therefore, it is necessary and important to reexplore the influencing factors and mechanisms that affect the learning efficiency of students at all levels nowadays based on which we could construct a theoretical model of efficient learning model.

A wealth of technical language, Internet terms, slang and colloquial usage. Hundreds of tinted usage notes to help avoid translation pitfalls. A four-color illustrated supplement covering 400 essential French and English idioms. □□□□□ □□□, 2014. The solo exhibition Ai Weiwei absent at Taipei Fine Arts Museum (TFAM) is the artist's first large-scale solo exhibition to be held anywhere in the ethnic Chinese world. The museum presents the exhibition to convey Ai Weiwei's dynamic works of arts, his ideas and influential power to audience. Ai Weiwei absent presents 21 sets of artwork spanning a period from 1980s to 2011, encompassing a variety of forms such as installation and video and using a variety of materials such as ceramics, marble, antique utensils and bicycles. It also includes a series of over 100 photographic works, 75 of which

were taken by the artist during his stay in New York between 1983 and 1993 while the other 25 pieces were shot after he moved back Beijing East Village in 1993 The artist s most recent work Forever Bicycles created specially for this exhibition is composed of 1 200 bicycles and installed in an exhibition space 10 meters high Bicycles have long been the most common means of transport in China and as such are both familiar and intimate but Ai Weiwei strips away the functionality of the object He takes his own sensitivity and preferences and through them expands the idea of using finished objects The use of 1 200 bikes and the large structure of the work were particular challenges in the construction of the piece In addition as the bikes are piled layer upon layer on top of each other their wheel axles are transformed to form a labyrinthine like space Visitors can appreciate and reflect on the aesthetics of the abstract shapes from different angles at the same time feeling first hand the work s great energy and appeal Date October 29 2011 January 29 2012 *Délibérations Du Comité Sénatorial Permanent Des Transports Et Des Communications* Canada.
