Guidance for generative AI in education and research

Holmes, Wayne, Miao, Fengchun, UNESCO, 2023-09-08. Publicly available generative AI (GenAI) tools are rapidly emerging and the release of iterative versions is outpacing the adaptation of national regulatory frameworks. The absence of national regulations on GenAI in most countries leaves the data privacy of users unprotected and educational institutions largely unprepared to validate the tools. UNESCO's first global guidance on GenAI in education aims to support countries to implement immediate actions, plan long term policies and develop human capacity to ensure a human centred vision of these new technologies. The Guidance presents an assessment of potential risks GenAI could pose to core humanistic values that promote human agency, inclusion, equity, gender equality and linguistic and cultural diversities as well as plural opinions and expressions. It proposes key steps for governmental agencies to regulate the use of GenAI tools including mandating the protection of data privacy and considering an age limit for their use. It outlines requirements for GenAI providers to enable their ethical and effective use in education. The Guidance stresses the need for educational institutions to validate GenAI systems on their ethical and pedagogical appropriateness for education. It calls on the international community to reflect on their long term implications for knowledge teaching, learning and assessment. The publication offers concrete recommendations for policy makers and educational institutions on how the uses of GenAI tools can be designed to protect human agency and genuinely benefit learners, teachers and researchers.

Make: Volume 95 Dale Dougherty, 2025-10-28

Amazing things are happening in low cost computing and Make is all over it. In *Make Volume 95* the big names Arduino and Raspberry Pi are pairing SBCs with MCUs in new products like we've never seen before but independent board makers like BeagleBoard and IceWhale are hot on their heels. Next get connected with the Meshtastic off grid communications network, how it works and how to build a walkie textie handset node using LoRa radio boards. Then CircuitPython and MicroPython compatibility are becoming a feature, not an afterthought. We'll also show you how to run CircuitPython on Make's own Oxocard ESP32 microcontroller and how to build a University of Michigan's time tested wheeled robot powered by MicroPython on the RP2040 microcontroller. Then build a go anywhere RP2040 based pocket video synthesizer to generate

wild video art and throw it to screens or projectors And in our special pull out Guide to Boards 2026 we take a look at our favorite new microcontrollers MCUs and single board computers SBCs for creating all kinds of smart projects Plus we ll tell you which are the best boards for AI projects LEDs cosplay and wearables music and more Of course boards aren t the end all be all as always Make brings you all kinds of different projects to build Knit a plushie breadboard with conductive thread yes it really works 3D print on fabric to make an elegant origami folding handbag Sharpen your reflexes with a laser cut toy Pocket Pickleball game or an easy to make Reaction Race game with micro bit Get hands on with ROS 2 the Robot Operating System for complex robotics projects Show beginners how to level up their electronics chops with skill trees from our new book Skill Seeker Young Maker Edition And much more

Pandemic Societies Alan Petersen, 2024-10-21 From SARS to Zika and Ebola to COVID 19 epidemics and pandemics have become increasingly prevalent in recent years Each outbreak presents new challenges but the responses are often similar This important book explores the dimensions dynamics and implications of emerging pandemic societies Drawing on ideas from sociology and science and technology studies it sheds new light on how pandemics are socially produced and in turn shape societies in areas such as governance work and recreation science and technology education and family life It offers pointers to the future of pandemic societies including the expansion of technologies of surveillance and control as well as the prospects of social renewal created by economic and social disruption
