robotics in Education      **Proceedings of the 1986 IEEE International Conference on Systems, Man and Cybernetics**, 1986      *Proceedings of the ... IEEE International Conference On Systems, Man, and Cybernetics*, 1986      Critiquing Generative AI in Africa's Media Ecosystems Lungile A. Tshuma, Trust Matsilele, 2025-11-17 This book takes a critical approach to the rise of Artificial Intelligence AI within the media and communication landscape The book argues that as technology is a social construct reflecting existing power dynamics those in the Global South and in Africa in particular are bound to be marginalised and have their knowledge systems overlooked as the Global North dominates technological developments The birth of AI has ignited debates about its benefits to lower income countries with some highlighting its potential to advance businesses and grow economies However this book argues that AI tools have been produced to serve Western needs and that instead there is a need for countries in Africa to have home grown solutions defined by local values Drawing on case studies and analysis from across the continent the book seeks to caution challenge and proffer solutions to the use and understanding of Generative AI for media and communication in non western societies At a time when generative AI is threatening to shape the future of media and communication around the world this book is a vital and timely contribution to debates within critical data studies and African media studies      *AI-Powered Pedagogy and Curriculum Design* Geoff Baker, Lucy Caton, 2025-09-17 AI Powered Pedagogy and Curriculum Design offers practical insights and guidance on the effective integration of AI tools into teaching practices and curriculum design While numerous claims exist as to the validity and authenticity of the applications of AI in schools too little attention has been paid to empirical research conducted with and by teachers in real world classrooms This book synthesises diverse viewpoints from teacher educators across disciplines and levels toward a comprehensive context specific understanding of the challenges and best practices for responsibly leveraging Generative AI to enhance outcomes in classrooms Contributors further shed light on how Generative AI can align with standards assessment practices and teacher training programs in different settings Firsthand classroom experiences and experimental approaches of educators in the United Kingdom and Europe will provide current and aspiring teachers with insights into the intersection between AI and teacher empowerment student participation ethical implications and socially just approaches      *Simple Scientific Experiments, Entertaining and Instructive* Aurel De Ratti, 1903

*Masculinities and Language* Paul Baker, Gavin Brookes, 2025-03-31 Today the topic of gender identity is being discussed more widely than ever before With the rise of online misogyny and in the wake of metoo language around masculinity and toxic masculinity merits closer examination Accessibly written by two leading linguists this book provides a comprehensive treatment of the debates around language and masculinity asking how language is used to perform masculinity and how language is used to represent men Including examples of research from a range of international scholars along with original case studies and engaging examples from popular culture media literature advertising and politics the authors address a wide range of theoretical and methodological standpoints The book examines concepts of gender performativity hegemonic
