Easy Ai Tools For Students Tips For American Readers:

Teaching English With AI Gusti Astika, 2025-04-27 Teaching English with AI is a practical guide for high school English teachers who want to start using Artificial Intelligence in the classroom. It offers simple, clear strategies to make your lessons more engaging, reduce your workload, and give students more personalized learning without replacing the human touch that makes teaching meaningful. You'll learn how to use AI tools to support students outside class, automate tasks like grading and feedback, and create lessons that match each student's level. From writing help to speaking practice, lesson planning to gamified learning, this book shows how AI can make your job easier and your classroom more exciting. It also addresses real concerns like feeling unsure about AI or wondering how to use it responsibly. With ready-to-use ideas, lesson plans, and an easy action plan, this book will help you feel more confident using AI while keeping students at the heart of your teaching.

Machine Learning and AI with Simple Python and Matlab Scripts M. Umit Uyar, 2025-04-15 A practical guide to AI applications for Simple Python and Matlab scripts. Machine Learning and AI with Simple Python and Matlab Scripts introduces basic concepts and principles of machine learning and artificial intelligence to help readers develop skills applicable to many popular topics in engineering and science. Step-by-step instructions for simple Python and Matlab scripts mimicking real-life applications will enter the readers into the magical world of AI without requiring them to have advanced math and computational skills. The book is supported by instructor-only lecture slides and sample exams with multiple-choice questions. Machine Learning and AI with Simple Python and Matlab Scripts includes information on Artificial neural networks applied to real-world problems such as algorithmic trading of financial assets, Alzheimer's disease prognosis, Convolutional neural networks for speech recognition and optical character recognition, Recurrent neural networks for chatbots and natural language translators. Typical AI tasks including flight control for autonomous drones, dietary menu planning, and route planning. Advanced AI tasks including particle swarm optimization and differential and grammatical evolution, as well as the current state of the art in AI tools. Machine Learning and AI with Simple Python and Matlab Scripts is an accessible, thorough, and practical learning resource for undergraduate and graduate students in engineering and science programs, along with professionals in related industries seeking to expand their skill sets.
