Artificial Intelligence and SMEs in Developing Economies Timilehin Olasoji Olubiyi, Tulus T.H. Tambunan, 2025-06-27 Artificial Intelligence and SMEs in Developing Economies explores the emergence and application of Artificial Intelligence in developing economies. This is in response to the shift in Artificial Intelligence research towards the achievement of Sustainable Development Goals (SDGs) as well as the environmental problems and methods to solve them. Written by experts from around the globe from developing countries, the book contains a balance of theoretical and empirical chapters that explore Artificial Intelligence in the context of business. It focuses especially on integrating industry 5.0 where Artificial Intelligence plays a major role. The chapters include knowledge and applications for small businesses ranging from disruptive Artificial Intelligence technologies to determinants of Artificial Intelligence adoption in SMEs from major developing economies such as Africa, Latin America, and Asia. In the latter chapters, the book discusses the application of Artificial Intelligence such as how to leverage it for sustainable and responsible small businesses and the importance of appreciating it in a business environment. This book is the first substantial study on Artificial Intelligence and the future of sustainable small businesses in emerging economies. It is a useful resource for academics and university students with interest in Artificial Intelligence and sustainable small businesses, specifically small business development. It is also a valuable read for policy makers and SME stakeholders.

Don't Click That! İsmail Günaydın, 2025-07-31 Don't Click That: The Survival Guide to Outsmarting Online Scams in the Age of AI. Every day, thousands of people get scammed. Their identities stolen, accounts drained, digital lives turned upside down. And most of them? They're not careless or clueless. They just hesitated for a second. Clicked one link. That's all it took. This book exists to close that one-second gap. Don't Click That isn't just another list of scam types or basic security tips. It's a clarity tool, a psychological shield built to help you see through fake promises, emotional manipulation, and the digital fog that scammers rely on. Inside, you'll find practical strategies powered by AI tools and prompts that help you analyze messages, links, job offers, and websites before it's too late. Real-life scam breakdowns. Protection plans for families. And a system you can actually stick to, no matter how tech-savvy you are. If you've ever wondered, "Could this happen to me?" this book is your answer. Because the problem isn't technology. The problem is being left alone with it. The solution is trained instinct. Supported by tools. Backed by awareness. When you finish this book, you won't just understand scams; you'll be able to spot them, block them, and help others do the same. You'll build your own system of digital self-defense that adapts as the threats evolve. This is no longer just about whether or not you click. It's about who stays in control.

Artificial Intelligence and Financial Transformation: Unlocking the Power of Fintech, Predictive Analytics, and Public Governance in the Next Era of Economic Intelligence Abhishek Dodda, 2025-06-06 The global financial ecosystem is undergoing a profound transformation, one driven by the accelerating convergence of artificial intelligence, fintech innovation, and data-powered public governance.
