Proven Ai Writing Tool For Beginners For Students:

Adopting Artificial Intelligence Tools in Higher Education Thangavel Murugan, Karthikeyan Periasamy, A.M. Abirami, 2025-05-27 This edited volume explores the adoption of artificial intelligence AI tools in higher education specifically focusing on student assessment. It examines the integration of various AI tools within higher education, discussing the challenges and opportunities they present and the innovative solutions they offer. The chapters explore various issues surrounding the use of AI in higher education and propose potential solutions. The book begins with a systematic exploration of AI's potential, presenting innovative ways to ensure fair and accurate assessments that enhance the overall quality of education. It highlights the benefits of AI-powered grading systems that streamline assessment processes, provide timely feedback, and promote fair evaluations. The text discusses how machine learning algorithms can revolutionize assessment methods, allowing individualized adaptive testing tailored to each student's unique needs. Furthermore, it examines natural language processing (NLP) techniques for evaluating student essays by analyzing linguistic features such as grammar and semantic coherence. Moreover, it highlights AI-powered virtual assistants offering personalized feedback and learning recommendations. Case studies illustrate successful AI assessment implementations and methods for improving AI-based evaluations. The book also addresses engagement and success in the post-COVID 19 context. It raises concerns about plagiarism and academic integrity, comparing AI solutions to traditional methods while exploring the challenges associated with adopting AI in education. Educators, administrators, academics, and technology experts working in institutes of higher learning will find this volume compelling. It is also suitable for students taking courses in educational technology, e-learning, and digital learning.

Artificial Intelligence in Our Language Learning Classrooms Louise Ohashi, Mary Hillis, Robert Dykes, 2025-11-21 Artificial Intelligence in Our Language Learning Classrooms brings together leading researchers and practitioners exploring the pedagogical, ethical, and emotional dimensions of generative AI (GenAI) in second language (L2) education. Across two major sections, L2 skill development and broader educational perspectives, contributors offer theory-informed and practice-oriented insights into how GenAI can transform language teaching and learning. Topics include conversational AI and chatbots, writing development, extensive reading, pragmatics, instruction, ethics, emotions, and teacher-led inquiry. Through a balance of optimism and critical reflection, this volume situates AI integration within established educational frameworks, supporting teachers as they navigate the rapidly evolving technological landscape. The book emphasizes teacher agency, responsible innovation, and the centrality of human connection in AI-enhanced classrooms. By combining empirical research, case studies, and reflective narratives, it addresses both opportunities and challenges in using GenAI tools for language education. This comprehensive resource is essential reading for language teachers, researchers, and teacher educators seeking to build informed, ethical, and pedagogically grounded approaches to AI integration in the L2 classroom.

Enhancing Learning Experiences With Digital Tools: AI, ChatGPT, and Virtual and Augmented Reality

Sanmugam, Mageswaran, Edwards, Bosede Iyiade, Mohd Barkhaya, Nurul Maziah, Khlaif, Zuheir, 2025-03-12 As technology increasingly permeates our everyday lives the traditional educational landscape is experiencing a dynamic shift The rapid development of artificial intelligence AI and immersive technologies has introduced unprecedented possibilities for education making this an exciting yet challenging time for educators researchers and students alike This shift is redefining how knowledge is delivered accessed and experienced in education Enhancing Learning Experiences With Digital Tools AI ChatGPT and Virtual and Augmented Reality presents an exploration of the transformative power of digital tools in modern education It illuminates how AI virtual and augmented reality and other digital resources are being leveraged to reimagine learning environments elevate student engagement and foster innovative teaching methods Covering topics such as ChatGPT English language teaching and young learners this book is an excellent resource for educators academic researchers administrators policymakers and more

Ethics and Integrity in Education (Practice) Mary Davis, Cláudia Baptista, 2025-07-30 This book offers a collection of effective and insightful practices in academic integrity through diverse perspectives and global contexts Contributors ranging from faculty academic integrity leads academic conduct officers student support staff independent researchers and students in nine different countries share their collective knowledge and understanding based on their roles work and study in academic integrity The main themes of the chapters focus on innovation and collaboration community and culture stakeholders in academic integrity and awareness of breaches and ethics Within these themes the contributors explore Artificial Intelligence tools inclusion collaboration with students networks publishing setting up research offices student champions at high school and university and academic conduct breaches The chapters end with calls to action and recommendations for readers to incorporate into their practice In these ways the book aims to raise awareness of important issues in academic integrity contexts and support the continued development of practice

Future of Learning with Large Language Models Myint Swe Khine, László Bognár, Ernest Afari, 2025-11-19 The book covers theoretical foundations on how LLMs can enhance learning cognitive reinforcement improving learning efficiency and personalization in learning applications across the curriculum teacher training and support for LLM integration using in assessment and evaluation and measuring the impact and affordances of LLMs It acknowledges the challenges that come with integrating LLMs into education and will address the responsible development and deployment strategies to ensure that the models become powerful tools for good in the hands of educators It explores potential research directions such as the development of domain specific models and the creation of ethical frameworks for LLM use in education As education enters an era of AI enablement this visionary book equips teachers administrators technologists and policymakers with an authoritative guide to harnessing the power of large language models Readers will discover how these advanced systems can expand access to quality education tailor learning experiences and nurture the innovators and critical thinkers of tomorrow and glimpse into the future of learning and education with LLMs
