Doing Business In Less Developed Countries Financial Opportunities And Risks:

Doing Business in Less Developed Countries Mashala Rahnama-Moghadam, Hedayeh Samavati, David A. Dilts, 1995-06-27 There are substantial opportunities and risks in establishing a successful business in developing countries. Financial and economic risks of doing business with developing countries manifested in World Debt Crisis require careful examination before a business venture is attempted. The book provides thorough historical information about LDCs' economies and causes of their indebtedness. The most recent data regarding economic performance, indebtedness, and infrastructure of LDCs are presented as well. The book should prove useful to those considering business in developing countries and to scholars studying economic development and international business and finance. Written without an extensive use of sophisticated models and jargon, the book is accessible to both academic and nonacademic readers. The book consists of four parts. The first part focuses on defining LDCs and analyzing their stages of economic development. The second part presents two background chapters to aid the reader to put LDCs into an economic and historical context. Part III examines the World Debt Crisis and its effects on developing countries and implications for business in these countries. The final part of the book develops a strategic planning model to assist businesses in deciding whether to do business in indebted LDCs and once the decision is made to guide implementation of business plans. Infrastructure is critical to the success of prospective business enterprise. An appendix presents the most recent and detailed information about infrastructure in LDCs along with an index developed to serve as a quantitative guide to the availability of infrastructure. The book also contains appendices that present detailed data on relevant financial and economic variables in developing countries and an annotated bibliography.

An American's Guide to Doing Business in Latin America Lawrence W Tuller, 2008-02-01 Did you know this? In 2006 U.S. exporters shipped four and a half times as much product to Latin America as to China. Latin America has more than 500 million consumers ready to buy U.S. manufactured goods. Now is the time to enter this emerging new market, but doing business in Latin America is not always easy. In *An American's Guide to Doing Business in Latin America*, author and international trade expert Lawrence W Tuller shows you how to determine market risk, select reliable Latin American partners, and use export trading companies to grow your business opportunities. He also provides up-to-date facts on the politics of the region and U.S. Latin American relations. Following Tuller's advice, you'll learn how to finance exports and direct investment, create advertising strategies, partner with Latin American companies, and more. Latin America is ripe and ready for American business and investment. Are you ready to cash in? This book includes detailed
