Doing Philosophy Theodore Schick, Jr., 2023-02-02 *Doing Philosophy* Elizabeth Laidlaw, 2000-09-01 *Doing Philosophy at the Movies* Richard A. Gilmore, 2005-03-17 Explores philosophical ideas through an examination of popular film *Aspects Of Doing Philosophy* Chris Mahusay, 2021-06-17 Philosophy is the study of general and fundamental questions such as those about existence reason knowledge values mind and language Such questions are often posed as problems to be studied or resolved The term was probably coined by Pythagoras Philosophical methods include questioning critical discussion rational argument and systematic presentation The chapters in this book deal with these and other topics that are generally touched upon but rarely expanded on in a typical introductory course of philosophy They would perhaps be given a lecture or two at the beginning of the course But these topics are almost never considered important enough to be the subject for further lecture or discussion Yet I believe that students understanding of philosophy will be enhanced and they would encounter less confusion and uncertainties not to mention have a greater appreciation of the subject if they are given information on the topics discussed in this book In the first chapter I have outlined the great philosophers conceptions of philosophy In doing so my aim was to show that philosophy is an ever evolving subject that admits of no final and unanimous definition

Living Issues in Philosophy Harold Hopper Titus, 1986 *The Tools of Philosophy* Bill Tomlinson, 2018-11 In any discipline you can't find truth without understanding its tools Philosophy is no different yet many non philosophers try to do philosophy without that understanding or even knowing that there are philosophical tools The Tools of Philosophy shows all of the major mechanisms for doing philosophy and how they are related to each other and in some cases how some are a consequence of others We also find reason to believe that all of the major tools of philosophy have one source one major device and from that device all of the rest follow If we want to know how philosophy is done how we might actually explore philosophical ideas and how confident we should be in the answers we get we need to understand how the tools of philosophy i.e. the devices principles methods concepts and systems at the foundation of the practice can be used The issues that attract us to philosophy are often specific to us We can't just read what other philosophers have said and try to adopt or reject Sometimes we need to address our personal concerns uniquely It might not be clear to those not in philosophy that there are effective ways of addressing those concerns but there are They can be made explicit This is the avenue that Tools of Philosophy explores You can learn to articulate and address something meaningful to you that you may have assumed was out of your reach Becoming clear on your concern is getting halfway there Imagine a book that helps with that And on your journey you may just learn how to do a little philosophy

Doing the Impossible John E. Calfee, 1925 *For the Sake of Argument* Robert M. Martin, 2016-11-15 Academic philosophy can be puzzling to newcomers The conventions terms and expectations entrenched among philosophers aren't always clear from the outside Why are philosophers so preoccupied with finding the truth doesn't everyone have their own philosophy Is philosophy so deep and difficult that its literature has to be incomprehensible What kinds of arguments

can there be for a philosophical position Where does the evidence come from Why is there so much jargon wouldn't it be better to do away with it altogether Best selling author and retired philosophy professor Robert Martin answers these questions and many more offering a practical guide to arguing and writing philosophically Anecdotes jokes asides digressions oddments and entertainments are included throughout resulting in an informal introduction that doesn't shy away from the nuts and bolts of philosophical argument

The Courage of Doing Philosophy, 2007-01-01 In recent years the problem of idealization has been one of the central issues discussed in philosophy of science This volume gathers original essays written by well known philosophers The papers address the method of idealization and its applications in science as well as ontological and epistemological problems that have arisen Among the questions addressed are What is the logical form of idealizational statements and how should they be interpreted Is the possible worlds semantics useful in understanding idealization What is the relation between idealization and truth The volume is a celebration of Leszek Nowak's sixtieth birthday

Thinking Through Film Damian Cox, Michael Levine, 2011-09-26 THINKING THROUGH FILM Thinking Through Film provides the best introduction available to the diverse relationships between film and philosophy Clearly written and persuasively argued it will benefit students of both film and philosophy Thomas E Wartenberg Mount Holyoke College author of Thinking on Screen Film as Philosophy Cox and Levine's admirable Thinking Through Film picks up where Philosophy Goes to the Movies left off arguing that films not only do philosophy but in some cases do it better than philosophers The result is a rich and rewarding examination of films from metaphysical thought experiments personal identity puzzles to reflections on the meaning of life that shows in bracing no nonsense fashion how popular cinema can do serious philosophy Robert Sinnerbrink Macquarie University Thinking Through Film Doing Philosophy Watching Movies examines a broad range of philosophical issues through film as well as issues about the nature of film itself Using film as a means of philosophizing it combines the experience of viewing films with the exploration of fundamental philosophical issues It offers readers the opportunity to learn about philosophy and film together in an engaging way and raises philosophical questions about films and the experience of films Film is an extremely valuable way of exploring and discussing topics in philosophy Readers are introduced to a broad range of philosophical issues through film as well as to issues about the nature of film itself a blend missing in most recent books on philosophy and film Cox and Levine bring a critical eye to philosophical film discussions throughout
