Don La Dette Et L'identité:

Le don, la dette et l'identité Jacques Godbout, 2013 Dans L'Esprit du don Jacques T. Godbout montrait que le don occupe encore une place de première importance dans nos sociétés du Marché et de l'état. Dans cet ouvrage qui le parachève et le systématise, il généralise son propos : le don est ce mode de circulation des biens et services propre aux réseaux et on n'intervient pas la séparation entre un public et des professionnels. Dans la famille ou dans la société, le monde des réseaux fonctionne au don et la dette et non pas l'équivalence comme dans le Marché ou l'État. Quand les réseaux fonctionnent bien, cette dette est positive : elle n'engendre pas d'angoisse et d'aliénation, mais confiance et désir de loyauté. Le don apparaît ainsi indissociable du sens, c'est l'intention qui compte et c'est le sens qui fait le don. Enfin, c'est travers la relation de dette positive ou négative de don et de contre-don que se forment ou se déforment les identités des acteurs sociaux. Nourri par de nombreuses recherches empiriques qui le rendent extrêmement parlant, ce livre paru en 2000 aux Éditions La Découverte était devenu introuvable depuis longtemps. Il propose un véritable paradigme alternatif, celui de la science économique et de la sociologie utilitaristes. Au lieu de postuler que nous serions tous des *homo oeconomicus* qui ne songent qu'à prendre et garder, il suppose l'hypothèse inverse : nous ne serions pas plutôt du genre *homo donator*, davantage motivés en fait à donner qu'à recevoir. Le don, la dette et l'identité prend ainsi contre-pied un grand nombre d'idées reçues dans les sciences sociales.

Le don, la dette et l'identité : homo donator versus homo oeconomicus, 2007 **Le don, la dette et l'identité** Jacques Godbout, 2000 Un livre basé sur une série de recherches empiriques sur le phénomène du don, savoir pourquoi tant de choses circulent-elles de cette façon ? Quelles sont les bonnes raisons qui nous poussent à donner en ces temps modernes ou plutôt ne pas donner ? *Comprendre la famille* 6 Carl Lacharité, Gilles Pronovost, 2011-04-22T12:14:41-04:00 Au fil des ans, les Actes des divers symposiums se sont révélés être une source majeure de référence pour ceux et celles qui désirent mieux comprendre la famille dans son évolution et ses transformations. La présente édition ne fait pas exception à la règle. On y retrouve vingt-deux contributions regroupées sous les rubriques suivantes : enfance et paternité, problèmes de santé et bien-être chez les enfants et les adolescents, interactions entre le milieu scolaire et le milieu familial, problèmes relationnels au suicide, expériences de solidarité et d'entraide. Identity and Difference in the Global Era Cândido Mendes, Enrique Rodriguez Larreta, 2002 *Durkheim and the Birth of Economic Sociology* Philippe Steiner, 2011 Steiner argues that there are two stages in Durkheim's approach to the economy: a sociological critique of political economy and a sociology of economic knowledge. In his early works, Durkheim critiques economists and their categories and tries to analyze the division of labor from a social rather than an economic perspective. From the mid-1890s onward, Durkheim's preoccupations shifted to questions of religion and the sociology of knowledge. Hermeneutic Rationality Maria Luísa Portocarrero, Luis António Umbelino, Andrzej Wierciński, 2012 The problem of the limits of reason is by no means a privileged subject of an academic discourse. By reducing reality to what can be conceived of within the paradigms of the scientific laboratory, manipulative despotism which

positivistic notion of objectivism has established creates in a human being a unilateral conscience of the world and of oneself a conscience that dominates today our understanding of existence in its manifold senses of Being and the world we live in This way of thinking based on a powerful and skillful technique aimed at controlling human life in all its dimensions intends to impose this limiting positivistic horizon on human beings in the name of Liberte Egalite and Fraternite Hermeneutic rationality resists the claims of modern science and promotes the culture of hospitality toward the world as it shows itself in its complexity Maria Luisa Portocarrero Universidade de Coimbra Portugal Professor of Philosophy specializing in the phenomenological hermeneutics of Hans Georg Gadamer and Paul Ricoeur Luis Antonio Umbelino Universidade de Coimbra Portugal Professor of Philosophy and Artistic Studies Andrzej Wiercinski Albert Ludwigs Universitat Freiburg Germany Professor of Philosophy of Religion specializing in Practical Philosophy Philosophical Hermeneutics

rendre de M Mauss n est aujourd'hui ni mort ni moribond mais bel et bien vivant pour qui sait voir Plus encore il suggère que le don constitue aujourd'hui comme hier le système même des relations sociales en tant qu'elles sont irrductibles aux relations d'intertronomie ou de pouvoir Vus du don les champs classiques de la sociologie prennent un tout autre relief Qu'il s'agisse du monde du travail de la sociabilité familiale amicale amoureuse des questions de genre et d'identité de la protection sociale et de la solidarité des associations ou de la philanthropie du champ de la médecine et de la santé ou encore de la religion de l'art et de la science chacune des contributions ici réunies rédigées par des spécialistes reconnus dans ces différents domaines montre combien le paradigme du don ouvre la voie à une intelligence inédite des phénomènes sociaux Invitant le sociologue à porter son regard sur ce qui circule entre les hommes et pas uniquement sur ce qu'ils prennent et accumulent il donne à voir cette délicate essence du social si chère à Marcel Mauss
