War, Revolution and Remembrance in World Cinema Nancy J. Membrez, 2021-05-15 Two World Wars engulfed Europe Asia and the United States leaving indelible scars on the landscape and survivors The trauma of civil wars in Spain declared and Latin America tacitly spanned decades yet contradictorily bind parties together even today Civil wars still haunt Africa where in more recent years ethnic cleansing has led to wholesale genocide Drawing on the emerging field of Memory Studies this book examines narrative and documentary films made far from Hollywood that address memory both traumatic and nostalgic surrounding these conflicts despite attempts by special interests to erase or manipulate history

Commodifying Violence in Literature and on Screen Alejandro Herrero-Olaizola, 2021-10-18 This book traverses the cultural landscape of Colombia through in depth analyses of displacement local and global cultures human rights abuses and literary and media production Through an exploration of the cultural processes that perpetuate the darker side of Latin America for global consumption it investigates the condition that has led writers filmmakers and artists to embrace purposefully or not the incessant violence in Colombian society as the object of their own creative endeavors In this examination of mass marketed cultural products such as narco stories captivity memoirs gritty travel narratives and films Herrero Olaizola seeks to offer a hemispheric approach to the role played by Colombia in cultural production across the continent where the illicit drug trade has made significant inroads To this end he identifies the Colombian condition within the parameters of the global economy while concentrating on the commodification of Latin America's violence for cultural consumption The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Quixotism explores how a group of Spanish intellectuals writing during the time of Restoration Spain 1876 1931 incorporated the figure of Don Quixote into an on going debate on Spanish national and imperial decadence and used this figure to promote a nationalistic and jingoistic formula for national imperial regeneration Commonly known as the Generation of 98 these writers turned Spain's military defeat at the hands of an emerging American empire into a moral victory Christopher Britt Arredondo uses the term Quixotism to denote a premodern heroic ideal centered on the figure of Don Quixote as he explores these writers Here he shows how Ganivet turns Quixote into a spiritual conquistador Unamuno into a tragic messiah Maeztu into a smiling priest and Ortega into a paternalistic master Quixotism is a new critical category of political and cultural relevance not only for fin de siècle Spain and the National Catholic Spain of the Franco era but also the democratic postmodern Spain of today Responsabilidades políticas de México Juan Pedro Didapp,1905 **El antifaz.
