Done To Perfection:

In Search of God's Perfection Andrew Murray, 2013-09-02 Follow legendary teacher and author Andrew Murray as he takes you through the many appearances of the word perfect in Scripture From these passages Murray concludes that Perfection is possible and attainable To know perfection we must accept God's commands and obey them Perfection is not an arbitrary command the nature of God can ask for nothing less Perfection is the highest aim of what God in His great power can do for us Perfection is not some intangible level of existence that sounds good in theory but is impossible to achieve in real life Perfection is not only obtainable but it should be our goal as believers God has made divine provision for each of us to become perfect *Annual Report* Ohio State Board of Agriculture, 1858

Made in Germany - A Proof of Technical Perfection. Stereotypes of Germans in British Advertising Cornelia Neumann, 2007-09 The British attitude towards Germany seems to be ambiguous There are still many World War II movies on television there are serious newspaper articles and hostile tabloid cartoons unfriendly governmental memos and last but not least advertising The people dealing with this issue are of different political backgrounds therefore they have contradictory intentions and express either friendly or hostile opinions Nevertheless certain stereotypes of Germans are recurrent regardless of which attitude is represented The two following lists of German attributes have only recently been compiled The first one is the result of the Chequers Conference in March 1990 when Margaret Thatcher discussed the aspects of German reunification with some confidence The Conference's consensus on eternal German characteristics was insensitivity to the feeling of others aggressiveness assertiveness bullying egotism The memo was not designed to be published therefore one can assume that the participants spoke frankly Several other German features can be found in a poll in which students were asked about national characteristics According to the majority Germans are orderly disciplined organised efficient obedient to rules inflexible punctual hard working laborious and ambitious arrogant particularly in intellectual matters complex difficult to understand Angst ridden My paper will focus on the occurrence of several of these images in advertising especially in four campaigns released between 1993 and 1997 Three of them deal with German products promoted for German consumers One of them deals with a British product for the British market but refers to Anglo German conflict in order to tell its story We will see that especially the stereotypical German virtues as mentioned above are applied in order to emphasise the value of the goods In contrast one example shows how negative images are used to show British superiority publisher's website
