## Introverts Are You Ready To Tell The World To Shut Up

You know you would never do that because you are an introvert

That doesn't mean you are not tired of being labelled as a loner anti social or that you are seen to have some type of personality defect that needs to be cured

When did quiet become an abnormality

Sadly since the beginning of time it seems

The people on the outside edge of the social circles or quiet ones have always been taking the brunt of everyone's misunderstanding and ridicule

There is nothing wrong with being an introvert in a predominately extrovert world so don't believe the hype

There are many advantages introverts enjoy actually and they are revealed inside

What if there was a way for you to release your fears of social gatherings and even enjoy them

How about excelling at public speaking leaving those extroverts dumbfounded as to who you just became

Or mingling with the extroverts without them even caring that you are an introvert all the while enjoying yourself

What if you could do all this without giving up who you are

It is important to introverts to be true to themselves and trying to be artificial
