Mega Book.LIGHTWORKERS 2013. THE BEST,FRIENDLIEST,CERTIFIED,MOST HONEST Maximillien De Lafayette, 2013 This book is customer and client s oriented In our research selection and interviews with lightworkers we placed a strong emphasis on customer s best interest Many questions rotate around a lightworker s devotion to his or her client how a practitioner walks an extra mile with a client and the rapport between a lightworker and client Consequently the book was written not to promote particular practitioners but to serve the clients and inform them about lightworkers who care most about them Bottom line is line Protect the interest of clients This is why this book was written Yes this book is customer and client s oriented and it shows in the questions we have asked and we kept asking numerous times with minor variations to be absolutely sure and certain that the lightworkers have properly answered the questions and to give them other opportunities to elaborate further on how indeed they have clients best interest in heart and on their minds Nature of the Place Edward Kanze, 2025-04-15 A love letter to the Adirondacks revealing the hidden wonders and interconnected lives of its wildlife by one of the region s most prolific and prominent residents The Nature of the Place is storied Adirondack nature writer Edward Kanze s invitation to slow down smell the roses and get to know fellow creatures with more longstanding claims to this landscape than we have Theirs is the real internet a web of life that weaves together an almost infinite number of threads into a fabric that s a wonder to behold and something close to a miracle in a largely hostile universe In these dazzling pages readers meet the big charismatic animals of the Adirondacks the black bear and the moose We encounter little creatures too all of which lead fascinating lives while nearly unseen tiny fish that live in exquisite mountain streams the infuriating and almost invisible biting insects called no see ums centipedes millipedes and earthworms Discover an orchid that pays a steep price for its rough treatment of bumblebees plants so desperate for nitrogen they ve taken to catching animals and eating them poison ivy and the reasons why we might want to exchange our dislike of it for love and a common wildflower that goes through serial sex changes Loons owls falcons eagles and songbirds pour out effusions of apparent ecstasy here along with much about bobcats foxes snowshoe hares beavers and flying squirrels Snakes frogs salamanders and big predatory fish make appearances also as well as fungi that produce light in the dark and bacteria that manipulate the atmosphere to their own advantage even causing rain and snow to fall The Nature of the Place is Kanze s love letter to his home the Adirondacks Gathering materials from his decades long column at the Adirondack Explorer and elsewhere extensively revised and rewritten for this book Kanze s singular meditations on the flora and fauna of his home
