Dome Of The Rock:

The Crescent on the Temple Pamela Berger, 2012-06-07 The Crescent on the Temple by Pamela Berger elucidates an obscured tradition how the Dome of the Rock came to stand for the Temple of Solomon in Christian Muslim and Jewish art The crusaders called the Dome of the Rock the Temple of the Lord while Muslim imagery depicted Solomon enthroned within the domed structure Jews knew that the ancient Temple had been destroyed Nevertheless in their imagery they commonly labeled the Muslim shrine The Temple That domed Temple was often represented with a crescent on top This iconography long hidden in plain sight reflects one aspect of an historical affinity between Jews and Muslims **The Dome of the Rock** Oleg Grabar, 2006-10-30 The Dome of the Rock was fully restored in the last half century it was built during the reign of Herod Dome of the Rock Carter Watson, 2018-10-04 The land on which the Dome of the Rock now stands is hallowed ground to three of the world's major religions Judaism Christianity and Islam On this site originally stood a Jewish temple that was rebuilt as a Roman one and is now home to an Islamic shrine The obvious ties of all three cultures to this scrap of land remain strong and unchangeable Now a World Heritage Site the Dome and its surroundings draw worldwide attention Here is the dramatic story of the bitter centuries long and still unresolved struggle for control of this sacred land **Dome of the Rock** Jerry M. Landay, 1972 Explores the history and religious significance of the Holy City and chronicles the violent struggles among Jews Christians and Moslems to gain possession of Jerusalem's ancient Temple Mount **The Rock** Kanan Makiya, 2001 Whose rock is enshrined inside the golden Dome of Jerusalem The rock of Moses or of Muhammad Kanan Makiya gathers together the stories legends and beliefs that define the Rock the place where Adam landed in his fall from Paradise and where Abraham attempted to sacrifice his first born where Solomon's Temple stood and where Jesus preached the rock from which Muhammad ascended to heaven and transforms them into a narrative of novelistic depth and drama This brilliantly imagined historically based account of the building of the Dome of the Rock reconstructs the paths of the actual individuals whose spiritual journeys revolved around the seventh century lore of the Rock The chief protagonist is Ka b al Ahbar a learned Jew who accepted the prophecy of Muhammad and who accompanied the caliph Umar ibn al Khattab during his conquest of the Holy City The story is narrated by Ka b's son Ishaq who years later is commissioned to design the first monument of Islam the Dome of the Rock As he imagines the construction of the Dome and the complex reasons behind its creation Makiya gives us a meditation on the common terrain of the world's three great monotheistic religions and a remarkable investigation into what the Rock symbolizes beyond its various stories and names beyond even the three faiths at whose heart it sits **Dome of the Rock and the Temple Mount, Jerusalem** Elaine Easton, 1970 *The Crescent on the Temple* Pamela C. Berger, 2012 The Crescent on the Temple by Pamela Berger elucidates an obscured tradition how the Dome of the Rock came to stand for the Temple of Solomon in Christian Muslim and Jewish art The crusaders called the Dome of the Rock the Temple of the Lord while Muslim imagery depicted Solomon enthroned within the domed structure

Jews knew that the ancient Temple had been destroyed Nevertheless in their imagery they commonly labeled the Muslim shrine The Temple That domed Temple was often represented with a crescent on top This iconography long hidden in plain sight reflects one aspect of an historical affinity between Jews and Muslims The Origin of the Plan of the Dome of the Rock Keppel Archibald Cameron Creswell,1924 *The H̥aram of Jerusalem, 324-1099* Andreas Kaplony,2002 From the Muslims to the Crusaders conquest Jerusalem is among the world s best known cities Its most outstanding and constant feature is its shared holiness by three major confessions Muslim Jewish and Christian Covering the Marwanid the Abbasid and the Faimid phase this study describes not only the emergence of conceptions with which the three major confessions share this city but also their interactions as well as the political circumstances and religious axioms which give each conception its specific shape Looking for these conceptions of the holy area of the city the Haram has been chosen This area of the former temple was highly significant to all three confessions The analysis is based on a careful description of the Haram focusing on topics like names and traditions architecture rituals and customs visions and dreams and on the establishment of as many parallels as possible The result is a volume of astonishing depth and comprehensiveness As a compendium of sources it is unrivalled Journal of Palestine Studies The excellent graphics added to each section culminating in 103 figures deserve special mention Also impressive is Kaplony s generous handling of space it seems that he was aiming for the display of all the texts available to him taking into account Kaplony s treatment of the subject one is tempted to compare it with that of the precision and care of Swiss watchmakers Unless new sources come to light which is not very likely this book will be the standard work for many years to come Jerusalem Studies in Arabic and Islam This book is an excellent contribution to the growing literature on Islamic Jerusalem and it will indubitably be of interest to scholars and students of medieval Islamic history International Journal of Middle East Studies The Inscriptions in the Dome of the Rock in Jerusalem. A Symbol of Early Islam Evin Demir,2020-09-17 Essay from the year 2017 in the subject Theology Islamic theology grade 13 erg International School Hebrew University of Jerusalem Israel language English abstract The work focuses on the Dome of the Rock on the Temple Mount in Jerusalem The author focuses on the significance of the building as a symbol of early Islam in a recently conquered city History of the Dome of the Rock and al-Aqsa Mosque 'Ārif 'Ārif,1955

Architecture of Anxiety, Body Politics and the Formation of Islamic Architecture Heba Mostafa,2024-03-04 Structured as five microhistories c 632 705 this book offers a counternarrative for the formation of Islamic architecture and the Islamic state It adopts a novel periodization informed by moments of historical violence and anxiety around caliphal identities in flux animating histories of the minbar throne and maqsura as a principal nexus for navigating this anxiety It expands outward to re assess the mosque and palace with a focus on the Qubbat al Khadra and the Dar al Imara in Kufa It culminates in a reading of the Dome of the Rock in Jerusalem as a site where eschatological anxieties and political survival converge **The Temples of the Jews and the Other Buildings in the Haram Area at Jerusalem** James

Fergusson,1878 **Pathways of the Holy Land Or Palestine and Syria** James D. McCabe,1875 The Dome of the Rock
Feda W. Suleiman,2016 The beauty of Jerusalem has always been in the city s rich religious significance to the monotheistic Abrahamic faiths Judaism Christianity and Islam Since the destruction of the Second Temple by the Romans under Titus in the first century the temple mount has undergone many changes Although the earlier Christian community did not build on the remains of the temple the Umayyad Caliphs erected a splendid structure reflecting artistic influence from Byzantine and Persian sources together with some of the earliest surviving inscriptions of the Quran Today The Dome of the Rock stands proudly on the site and is an iconic structure representing Jerusalem for many worldwide This shrine begun in the late 600s was the first important public building of the Islamic faith As such it is a cultural focus point for the entire Islamic world and a monument that preserves the historic cultural and religious heritage of the site from the time of the First Temple up to the present day The Dome of the Rock in Jerusalem is not a mosque The octagonal ground plan looks to local buildings built as shrines over sacred spots usually those where martyrs died In the case of Jerusalem the site of the first Temple was where Adam was created and where the patriarch Abraham prepared to sacrificed his son Unlike the earlier Christian examples of octagonal shrine the exterior of The Dome is beautifully ornamented in colored marbles and was topped by a semi spherical dome Glass mosaics once covered the upper parts of the exterior walls and the drum of the dome These were replaced by ceramic tiles in the 16th century and the original dome was replaced by the ogival dome we all know The four main doors to the interior are aligned to the four cardinal points and have arrangements of beautiful marble columns reused from antique sources What we see today updated the original Dome of the Rock but followed its original design and intent The building is unique in the beautiful mosaics playing on the interior walls of the side aisles and the drum Those in the side aisles are the earliest texts of the Quran that lead the visitor into the space and to the center of the structure Persian or Sasanian motifs decorate the drum supporting the dome above the final texts of the Quran Because Islam does not use images of human beings in sacred spaces the play of light on these tesserae some backed with gold leaf and the beautiful stone work some restored creates a mood and a special environment conducive to prayer and meditation The end of the pilgrimage through the side aisles is the center space where you see the rock itself It is this combination of materials stone work glass tesserae and ceramic tiles used without and within a sacred octagonal space that attracted me as an art historian As a Muslim woman the whole environment of The Dome of the Rock and its sacred site is holy My thesis will try to analyse how such man made beauty can be so moving and expressive As such I will bring in my personal experiences and responses to the site and to The Dome of the Rock **The Dome of the Rock** Charles River,2025-05-10 Among the world s most recognizable man made structures the Dome of the Rock known in Arabic as the Qubbat as Sakara is also one of its most mysterious Although much of the Dome s construction reconstruction and later additions are well known from historical texts and archeological work what it represents why it was built where it was and even its use remain the subject of scholarly controversy Known for its

immense size and beauty and also for being located in the middle of Jerusalem one of the world's holiest cities the Dome of the Rock has been the focus of political leaders who wished to legitimize their rule religious warriors who believed that it empowered their weapons and pilgrims who thought it was a site of salvation and enlightenment As it drew these often diverse and sometimes disparate people to it it has served the purposes of devout Jews Muslims and Christians who although often not peacefully sharing the site seem to recognize its spiritual importance The Dome of the Rock has been many things to many people over the centuries and historians art historians and archaeologists have studied the Dome of the Rock and its background extensively Academics have created an accurate chronology of its life as well as details about how the monument was built including the construction and artistic techniques that were used The dome was built on the site of what is believed to have been the Solomonic Temple that the Israelites built to worship their god Yahweh setting the stage for the entire area to be a holy site for the Abrahamic religions over the following centuries Historians believe that the Umayyad Muslims saw this background as a prime location to build one of the greatest religious complexes in the Islamic world Employing architectural styles they borrowed from the East and West the builders created a structure that awed Christians and Muslims An examination of this chronology reveals just how important the Dome of the Rock was to the Islamic world and non Muslims who respected its grandeur and the site for its historical and religious connections to the Old Testament Today the Dome of the Rock continues to inspire millions of people around the world serving as a site for tourists as well as religious pilgrims and also occasionally the site of communal political and religious violence All of this along with its mysterious background make the Dome of the Rock one of the most important sites in the world
