**The Cultural Lives of Domestic Objects in Late Antiquity** Jo Stoner, 2019-03-19 In this study Jo Stoner investigates the role of domestic material culture in Late Antiquity Using archaeological visual and textual evidence from across the Roman Empire the personal meanings of late antique possessions are revealed through reference to theoretical approaches including object biography Heirlooms souvenirs and gift objects are discussed in terms of sentimental value before the book culminates in a case study reassessing baskets as an artefact type This volume succeeds in demonstrating personal scales of value for artefacts moving away from the focus on economic and social status that dominate studies in this field It thus represents a new interpretation of domestic material culture from Late Antiquity revealing how objects transformed houses into homes during this period Marriage in Past, Present and Future Tense Janet Carsten, Hsiao-Chiao Chiu, Siobhan Magee i, Eirini Papadaki, Koreen M. Reece, 2021-09-01 Marriage globally is undergoing profound change provoking widespread public comment and concern Through the close ethnographic examination of case studies drawn from Africa Asia Europe and North America Marriage in Past Present and Future Tense places new and changing forms of marriage in comparative perspective as a transforming and also transformative social institution In conditions of widespread socio political inequality and instability how are the personal the familial and the political co produced How do marriages encapsulate the ways in which memories of past lives present experience and imaginaries of the future are articulated Exploring the ways that marriage draws together and distinguishes history and biography ritual and law economy and politics in intimate family life this volume examines how familial and personal relations and the ethical judgements they enfold inform and configure social transformation Contexts that have been partly shaped through civil wars cold war and colonialism as well as other forms of violent socio political rupture offer especially apt opportunities for tracing the interplay between marriage and politics But rather than taking intimate family life and gendered practice as simply responsive to wider socio political forces this work explores how marriage may also create social change Contributors consider the ways in which marital practice traverses the domains of politics economics and religion while marking a key site where the work of linking and distinguishing those domains is undertaken **London, Past and Present** Henry Benjamin Wheatley, 1891 Based upon the Handbook of London by the late Peter Cunningham Cosmology - The Past, Present and Future of the Universe Herman J. Mosquera Cuesta, Kim Ho Yeap, 2024-10-30 Cosmology the science of all that exists in the universe is an interdisciplinary field that seeks to understand the fundamental nature of the universe that is how it evolved from its primordial stages including the Big Bang to its present state and its potential future This quest is driven by centuries of astronomical observations and advanced physical theories The growing number of ground based observatories space based satellites and cutting edge tools like the Hubble Space Telescope the James Webb Space Telescope and gravitational wave observatories allow us to look back to the very early stages of our expanding universe offering unprecedented insights This

book addresses several important cosmological issues including humanity's enduring search for other advanced civilizations in the cosmos. It highlights the importance of such cosmic exploration and provides a comprehensive understanding of the concept of spacetime within the framework of general relativity. The book introduces a cosmological model that incorporates an evolving curvature term within the standard model of cosmology and presents arguments in favor of a rotating universe exploring the associated mechanisms of how light and matter could escape from a Kerr black hole. In addition, it delves into modern efforts by cosmologists to uncover the actual shape of the universe's topology using the latest data. Finally, the book examines the critical role of quantum field theory in helping theorists build an increasingly robust picture of the cosmos. The editors hope that this scientifically rich and enlightening volume will engage readers and inspire further exploration into the mysteries of the universe.

**The Panjab Past and Present**, 2007 *Dwelling* Orsolya Katalin Petőcz, Naomi Segal, 2024-07-15 *Dwelling* is both an action and a location; it combines the spatial idea of habitation (dwelling in) with the temporal idea of lingering (dwelling on). We live not only in bricks and mortar, a tent, a hut, or a spaceship, but also in that most changeable of forms, our body, or in a remembered or virtual home. Especially since COVID-19, we have seen changes in the topography of everyday life. In this multi-disciplinary collection, a complex of meanings is approached from a variety of specific, often personal angles. Framed by two longer essays which theorise how the psychology of home may change under sudden pressure and how social relations are embodied in windows, doors, walls, and stairs, the book includes 18 further essays. Part I, Informal settlements, shows how a slum, urban development, or nomadic life may create a self-sustaining identity. In Part II, Huts and bridges, impermanence shapes the state of dwelling, while Part III, Liminal bodies, presents bodies suspended at thresholds of change. Movement in time and space characterises the last three sections. Part IV, Moving home, depicts transitions and arrivals. Part V, Dwelling in Memory, focuses on recollections of past places, and Part VI, Are we there yet, points the way to a future in which the consulting room changes to 2D, a family is exiled onto the small screen, or we imagine breaking away altogether into outer space.

*Staged Properties in Early Modern English Drama* Jonathan Gil Harris, Natasha Korda, 2006-11-23 This collection of essays explores the material, economic, and dramatic implications of stage properties in early modern English drama. The essays in this volume, written by a team of distinguished scholars in the field, offer valuable insights and historical evidence concerning the forms of production, circulation, and exchange that brought such diverse properties as sacred garments, household furnishings, pawned objects, and even false beards onto the stage.
