Living Beings Penelope Dransart, 2020-06-03 *Living Beings* examines the vital characteristics of social interactions between living beings including humans other animals and trees Many discussions of such relationships highlight the exceptional qualities of the human members of the category insisting for instance on their religious beliefs or creativity In contrast the international case studies in this volume dissect views based on hierarchical oppositions between human and other living beings Although human practices may sometimes appear to exist in a realm beyond nature they are nevertheless subject to the pull of natural forces These forces may be brought into prominence through a consideration of the interactions between human beings and other inhabitants of the natural world The interplay in this book between social anthropologists philosophers and artists cuts across species divisions to examine the experiential dimensions of interspecies engagements In ethnographically and or historically contextualized chapters contributors examine the juxtaposition of human and other living beings in the light of themes such as wildlife safaris violence difference mimicry simulation spiritual renewal dress and language

Philosophy, Film, and the Dark Side of Interdependence Jonathan Beever, 2020-11-03 Why might interdependence the idea that we are made up of our relations be horrifying Philosophy Film and the Dark Side of Interdependence argues that philosophy can outline the contours of dark specter of interdependence and that film can shine a light on its shadowy details together revealing a horror of relations The contributors interrogate the question of interdependence through analyses of contemporary film giving voice to new perspectives on its meaning Conceived before and written during the 2020 COVID 19 pandemic and through a period of deep social unrest this volume reveals a reality both perennial and timely

Impersonating Animals S. Marek Muller,2020-08-01 In 2011 in one sign of a burgeoning interest in the morality of human interactions with nonhuman animals a panel hosted by the American Association for the Advancement of Science declared that dolphins and orcas should be legally regarded as persons Multiple law schools now offer classes in animal law and have animal law clinics placing their students with a growing range of animal rights and animal welfare advocacy organizations But is legal personhood the best means to achieving total interspecies liberation To answer that question Impersonating Animals evaluates the rhetoric of animal rights activists Steven Wise and Gary Francione as well as the Earth jurisprudence paradigm Deploying a critical ecofeminist stance sensitive to the interweaving of ideas about race gender class sexuality ability and species author S Marek Muller places animal rights rhetoric in the context of discourses in which some humans have been deemed more animal than others and some animals have been deemed more human than others In bringing rhetoric and animal studies together she shows that how we communicate about nonhuman beings necessarily affects relationships across species boundaries and among people This book also highlights how animal studies scholars and activists can and should use ideological rhetorical criticism to investigate the implications of their tactics and strategies emphasizing a critical vegan rhetoric as the best means of achieving liberation for human and nonhuman animals alike

Happy Homes and the Hearts that Make Them Samuel Smiles,1886 **Transnational England** Monika Class,Terry F. Robinson,2009-03-26 The rise of the modern English nation coincided with England's increased encounters with other peoples both at home and abroad Their cultures and ideas artistic religious political and philosophical contributed in turn to the composition of England's own domestic identity Transnational England sheds light on this exchange through a close investigation of the literatures of the time from dramas to novels travel narratives to religious hymns and poetry to prose all of which reveal how connections between England and other world communities 1780 1860 simultaneously fostered and challenged the sovereignty of the English nation and the ideological boundaries that constituted it Featuring essays from distinguished and emergent scholars that will enhance the literary historical and cultural knowledge of England's interaction with European American Eastern and Asian nations during a time of increased travel and vast imperial expansion this volume is valuable reading for academics and students alike **Animals' Rights Considered in Relation to Social Progress** Henry S. Salt,1894 **Suffrage Reader** Claire Eustance,Joan Ryan,Laura Ugolini,2000-02-01 This reader contains a

mixture of new narratives on suffrage together with reinterpretations of some long established truths about the campaign by British women for the vote Some chapters shift the focus from the great and the good based in London and explore the issues which motivated supporters in other parts of Britain Other chapters illuminate the lengths some men were prepared to go to see women become voters and the lengths others were prepared to go to stop them A variety of topics is covered by the contributors who include both established scholars and writers relatively new to the field A Suffrage Reader provides an opportunity to push back the boundaries of suffrage history enabling us to think again about the diverse and sometimes contradictory motives for and outcomes of involvement in the long campaign by women for the vote in Britain The book also makes it possible to pause and reflect upon recent developments in writing on suffrage history and the extent to which this has been bound up with developing attitudes towards politics in the latter decades of the 20th century **Magisterial**
