Domination And Resistance:

Domination and Resistance Daniel Miller, 2005-06-27 The nature of power one of the central concerns in social science is the main theme of this wide ranging book Introducing a much broader historical and geographical comparative understanding of domination and resistance than is available elsewhere the editors and contributors offer a wealth of perspectives and case studies They illustrate the application of these ideas to issues as diverse as ritualized space the nature of hierarchy in non capitalist contexts and the production of archaeological discourse Drawing on considerable experience in promoting interaction between archaeology and other disciplines concerned with ideology power and social transformation the editors have brought together a stimulating book that will be of widespread interest amongst students of archaeology ancient history sociology anthropology and human geography

Entanglements of Power Joanne P. Sharp, 2000 The team of contributors explore themes of identity embodiment organisation colonialism and political transformation from historical contemporary and more abstract perspectives within a wide geographical and cultural spectrum

Domination and the Arts of Resistance James C. Scott, 2008-10-01 Play fool to catch wise proverb of Jamaican slaves Confrontations between the powerless and powerful are laden with deception the powerless feign deference and the powerful subtly assert their mastery Peasants serfs untouchables slaves laborers and prisoners are not free to speak their minds in the presence of power These subordinate groups instead create a secret discourse that represents a critique of power spoken behind the backs of the dominant At the same time the powerful also develop a private dialogue about practices and goals of their rule that cannot be openly avowed In this book renowned social scientist James C Scott offers a penetrating discussion both of the public roles played by the powerful and powerless and the mocking vengeful tone they display off stage what he terms their public and hidden transcripts Using examples from the literature history and politics of cultures around the world Scott examines the many guises this interaction has taken throughout history and the tensions and contradictions it reflects Scott describes the ideological resistance of subordinate groups their gossip folktales songs jokes and theater their use of anonymity and ambiguity He also analyzes how ruling elites attempt to convey an impression of hegemony through such devices as parades state ceremony and rituals of subordination and apology Finally he identifies with quotations that range from the recollections of American slaves to those of Russian citizens during the beginnings of Gorbachev's glasnost campaign the political electricity generated among oppressed groups when for the first time the hidden transcript is spoken directly and publicly in the face of power His landmark work will revise our understanding of subordination resistance hegemony folk culture and the ideas behind revolt

The Paths to Domination, Resistance, and Terror Carolyn Nordstrom, Joann Martin, 1992-02-25 The Paths to Terror offers a new and refreshing perspective on sociopolitical violence one that highlights the human experience of domination resistance and terror as they are woven into the fabric of everyday life These innovative essays take the reader from the Americas through Europe and the Middle East and to Asia to capture the cultural

construction of sociopolitical violence The authors expand our view of the ethnographic reality revealing the complex interplay among local national and international actors in the perpetuation of violence and terror The organization of the essays along a continuum from domination through the emergence of resistance to the development of cultures of conflict and terror underlines the value of understanding the growth and resolution of violence as cultural dynamics **Discourses of Domination and Resistance** Jane Goodman,1990 *Screens of Power* Timothy W. Luke,1989 Explores how certain aspects of power work in contemporary information based societies Domination and Resistance in Foucault Jessica Carson,1997 **Engaging the Powers** Walter Wink,1984 **The Paths to Domination, Resistance, and Terror** Nordstrom/Martin,1992 The Paths to Terror offers a new and refreshing perspective on sociopolitical violence one that highlights the human experience of domination resistance and terror as they are woven into the fabric of everyday life These innovative essays take the reader from the Americas through Europe and the Middle East and to Asia to capture the cultural construction of sociopolitical violence The authors expand our view of the ethnographic reality revealing the complex interplay among local national and international actors in the perpetuation of violence and terror The organization of the essays along a continuum from domination through the emergence of resistance to the development of cultures of conflict and terror underlines the value of understanding the growth and resolution of violence as cultural dynamics Feminism, Foucault, and Embodied Subjectivity Margaret A. McLaren,2002-10-10 Addressing central questions in the debate about Foucault s usefulness for politics including his rejection of universal norms his conception of power and power knowledge his seemingly contradictory position on subjectivity and his resistance to using identity as a political category McLaren argues that Foucault employs a conception of embodied subjectivity that is well suited for feminism She applies Foucault s notion of practices of the self to contemporary feminist practices such as consciousness raising and autobiography and concludes that the connection between self transformation and social transformation that Foucault theorizes as the connection between subjectivity and institutional and social norms is crucial for contemporary feminist theory and politics Domination, Resistance, and Social Change in South Africa Kathryn Manzo,1992-09-15 Manzo examines by means of historical analysis the effects of global power relationships on the politics of South Africa The author looks at the ways in which global power constructs identity normalizes relations of domination and shapes the form that resistance takes She asks for example why dominated people are so often waging conflicts among themselves rather than directing their resistance unfailingly toward their oppressors Why too is open defiance relatively rare and mass action infrequently used South Africa as an example is used to illustrate the much broader experience of oppressed populations as they struggle against western domination The book vividly portrays the complexity of relationships in South Africa and the role played by black resistance in economic and political change over time Manzo s sound interpretation unifies and enriches the historical progression and establishes a solid foundation for analyzing the lessons South Africa offers about the use of power in international relations *Dialogues*

in Urban and Regional Planning Michael Hibbard, Robert Freestone, Tore Øivin Sager, 2013-05-29 Dialogues in Urban and Regional Planning 5 is a selection of some of the best scholarship in urban and regional planning from around the world The internationally recognized authors of these award winning papers take up a range of salient issues from the theory and practice of planning The topics they address include the effects of globalization on world cities metropolitan planning in France and Australia and new research in pedestrian and traffic design The breadth of the topics covered in this book will appeal to all those with an interest in urban and regional planning providing a springboard for further debate and research The papers focus particularly on themes of inclusion urban transformation metropolitan planning and urban design The Dialogues in Urban and Regional Planning DURP book series is published in association with the Global Planning Education Association Network GPEAN and its member national and transnational planning schools associations Deconstructing the Hegemony of the State: Dialectics of Domination and Resistance Sheo Narayan Singh, University of Manchester. Institute for Development Policy and Management, 1999 Ten Philosophical Essays Kamal A. Shlbei, 2023-01-31 Ten Philosophical Essays By Kamal A Shlbei This book contains ten philosophical essays written from 2008 to 2010 as part of the prerequisites for writing a dissertation to obtain a doctoral degree in the Department of Philosophy at Duquesne University in Pittsburgh Pennsylvania These essays vary in their philosophical themes and historical periods In the first essay we stand at the problem of the thing in itself as raised by the German philosopher Immanuel Kant and the criticisms leveled at it by the philosophers who followed it The second essay reveals the dialectical relationship between value theory and theory of knowledge in Hegel's Phenomenology of Spirit The third essay exposes the forgetfulness into which Deleuze fell when he neglected the study of Jacobi and Suarez on the subject of individual ontology The fourth essay reveals the internal relations between the concepts of domination power and knowledge in the context of Foucault's intellectual development from the stage of archeology to the stage of genealogy to the stage of self care The fifth essay explores Al Farabi's philosophical view of happiness which although it seems parallel to Aristotle's understanding has its own Islamic character The sixth essay deals with the thesis of essence and existence in Aquinas On Being and Essence The seventh essay presents the problem of the unity of intellect between Averroes and Aquinas in light of the controversy taking place in the Middle Ages over the ontological proof of God The eighth essay examines the relation between justice of law and law of justice according to Aristotle's Nicomachean Ethics The ninth essay returns to the problem of essence and existence but in its modern philosophical dimension as it was manifested in Kierkegaard's existential philosophy through his book Philosophical Fragments The tenth essay presents Marx's criticism of Hegel in the light of historical materialism Domination and Resistance in Herman Melville's Characters Flávia Roberta Felippi Rückl, Sergio Luiz Prado Bellei, Universidade Federal de Santa Catarina. Centro de Comunicação e Expressão, 2000 **Resistances** Sarah Murru, Abel Polese, 2020-07-15 Our world today is experimenting a time of great power but also of tremendous resistances Everywhere people are brought together by similar burdens and frustration and

creatively think about how to counter the forms of domination they are ascribed to In academia as well there is an awakening among scholars to further investigate these multiple forms of resistance and equip the field with useful and empowering knowledge This book aims at presenting some of these findings and reflecting upon the implications social relevance and ethical challenges of the growing field of Resistance Studies The Dynamics of Power Maria O'Donovan,2002

Keywords in Education Policy Research Andrew Wilkins,Steven J. Courtney,Nelli Piattoeva,2024-01-10 The field of education policy research is a dense crowded space owing to its complicated relationship to different intellectual histories and the influence of various ontologies or turns To aid comprehension and clarity this book describes the history contribution and application of over 90 keywords in the field of education policy research It is designed as a reference learning and teaching tool to assist students educators and researchers with complex learning and teaching wider and background reading and knowledge building critical scholarship and research interdisciplinary thinking and writing and theory development and application **Domination and Resistance** Martha Smith-Norris,2016 *Social Geographies* Ruth Panelli,2004-01-31 Providing students with the resources to understand both the theoretical and empirical approaches social geographers take when investigating social difference this text outlines key theoretical approaches and traces the core geographies of difference class gender race ethnicity and sexuality It concludes by showing how geographers work across these ideas of difference to understand questions of identity power and action Publisher
