Dominican Republic Beyond The Lighthouse:

The Dominican Republic James Ferguson, 1992 The Dominican Republic is the land Columbus loved best runs the advertising slogan In celebration of the 500th anniversary of the explorer's arrival on the island of Hispaniola the government has spent a reported US 40 millions on building a bizarre commemorative lighthouse In the process it has bulldozed the homes of thousands of slum dwellers to clear the memorial site Beyond the Lighthouse looks at a country where extreme poverty exists alongside a booming tourist industry Where workers from neighbouring Haiti are literally enslaved in an almost bankrupt sugar industry Where political leaders date back to a dictatorship which ended more than 30 years ago In its comprehensive analysis of the Dominican Republic's turbulent history and its current political crisis Beyond the Lighthouse exposes the inequality and corruption which lubricate the country's economy It explores the complex and tragic relations between Dominicans and Haitians and the ambiguous role played by the United States The author also assesses the popular movement which is challenging a decaying political system and proposing a radical new form of democratic participation

Undocumented Dominican Migration Frank Graziano, 2013-06-01 Undocumented Dominican Migration is the first comprehensive study of boat migration from the Dominican Republic to Puerto Rico It brings together the interactive global cultural and personal factors that induce thousands of Dominicans to journey across the Mona Passage in attempts to escape chronic poverty The book provides in depth treatment of decision making experiences at sea migrant smuggling operations and U S border enforcement It also explores several topics that are rare in migration studies These include the psychology of migrant motivation religious beliefs corruption and impunity procreation and parenting compulsive recidivism after failed attempts social values in relation to law marriage fraud and the use of false documents for air travel from Puerto Rico to the mainland United States Frank Graziano's extensive fieldwork among migrants smugglers and federal agencies provides an authority and immediacy that brings the reader close to the migrants experiences The exhaustive research and multidisciplinary approach highly readable narrative and focus on lesser known emigrants make Undocumented Dominican Migration an essential addition to public and academic debates about migration

The Dominican Racial Imaginary Milagros Ricourt, 2016-11-18 This book begins with a simple question why do so many Dominicans deny the African components of their DNA culture and history Seeking answers Milagros Ricourt uncovers a complex and often contradictory Dominican racial imaginary Observing how Dominicans have traditionally identified in opposition to their neighbors on the island of Hispaniola Haitians of African descent she finds that the Dominican Republic's social elite has long propagated a national creation myth that conceives of the Dominican as a perfect hybrid of native islanders and Spanish settlers Yet as she pores through rare historical documents interviews contemporary Dominicans and recalls her own childhood memories of life on the island Ricourt encounters persistent challenges to this myth Through fieldwork at the Dominican Haitian border she gives a firsthand look at how Dominicans are resisting the official account of their national

identity and instead embracing the African influence that has always been part of their cultural heritage Building on the work of theorists ranging from Edward Said to douard Glissant this book expands our understanding of how national and racial imaginaries develop why they persist and how they might be subverted As it confronts Hispaniola s dark legacies of slavery and colonial oppression The Dominican Racial Imaginary also delivers an inspiring message on how multicultural communities might cooperate to disrupt the enduring power of white supremacy *Dominican Republic in Focus* David Howard,1998-12-01 This new series of country guides is designed for travellers and students who want to understand the wider picture and build up an overall knowledge of a country Each In Focus guide is a lively and thought provoking introduction to the country s people politics and culture The In Focus guides will brief you on The history Conquest life as a colony quest for independence and the building of a modern nation How history can help explain today s society and politics The people Who lives where how they live The different worlds of the poor and the rich blacks Indians and whites Arabs and Jews indigenous disenfranchised and dispossessed peoples human rights The culture What to read what to see what to hear Who s who in literature music dance theater and cinema Roots and rites of different religions Folk traditions and indigenous cultural celebrations The politics Who runs the country who wants to run the country Power and conflict between political parties the military guerillas and grassroots organizations Historical ties to the U S The economy What the country produces and exports how the economy has developed the impact of foreign debt and free market reforms who gains and who loses presence and role of U S corporations Where to go what to see Must see landmarks lists of monuments and historical sites as well as the author s expert tips on what to see and do to get the most out of a short trip to the country Plus Facts and figures Chronology Practical advice Nontourist travel Further reading Useful addresses Color and b w photos Maps Democracy And Human Rights In The Caribbean Ivelaw L Griffith,Betty N. Tracking the Literature of Tropical Weather Anne Collett,Russell McDougall,Sue Thomas,2017-01-09 This book tracks across history and cultures the ways in which writers have imagined cyclones hurricanes and typhoons collectively

understood as tropical weather Historically literature has drawn upon the natural world for its store of symbolic language and technical device making use of violent storms in the form of plot drama trope and image in order to highlight their relationship to the political social and psychological realms of human affairs Charting this relationship through writers such as Joseph Conrad Herman Melville Gis le Pineau and other writers from places like Australia Japan Mauritius the Caribbean and the Philippines this ground breaking collection of essays illuminates the specificities of the ways local national and regional communities have made sense and even relied upon the literary to endure the devastation caused by deadly tropical weather

World Directory of Minorities Bridget Anderson, James Chin, John Connell, Patrick Costello, Lindsey Crickmay, Chris Dammers, James Ferguson, David Hawk, David McDowall, Anna Matveeva, Julia Maxted, Neil Melvin, Peter O'Neill, Suzanne Pattle, Martyn Rady, Javaid Rehman, Alex Roslin, Nikhil Roy, David Sogge, Bogdan Szajkowski, Carl Wilson, Abebe Zegeye, 1997-01-01 This publication is the first version of the World Directory of Minorities and Indigenous Peoples published in 1997 The full Directory is now available and continually updated on our website The large majority of violent conflicts in the world today are conflicts within states with groups polarized across ethnic and religious divides and not across borders Ethnic religious and linguistic minorities are often among the poorest of the poor suffer discrimination and are frequently the victims of human rights abuses Time and time again in the past the United Nations system governments and even non governmental organizations NGOs working in the field of conflict prevention have failed to promote the human rights of minorities or to take early action to promote cooperation between communities Early action may have prevented the loss of millions of lives in many countries ranging from Rwanda to the former Yugoslavia and from Sri Lanka to Guatemala It is also significant that the Nobel Peace Prize was awarded to the Dalai Lama in 1989 and to Jose Ramos Horta and Bishop Carlos Belo in 1996 as a result of their peaceful campaigns to promote the rights of their people The situation of minorities is then a matter of major concern and it is essential that accurate objective and up to date information is made available This Directory contributes to that process It is difficult to assess accurately what proportion of the world s population identify themselves as belonging to minority communities Conservative estimates place this above 10 per cent and some suggest that more than 20 per cent of the world s population belongs to several thousand different minority groups and subgroups National statistics are often skewed for political reasons and there is no universally accepted definition of minorities The word has different interpretations in different societies throughout the world while the United Nations General Assembly has not sought to reach a definition beyond that implied in the title of the UN Declaration on the Rights of Persons belonging to National or Ethnic Religious and Linguistic Minorities adopted in December 1992 Minority Rights Group focuses its work on non dominant ethnic religious and linguistic communities whether or not they are numerical minorities The concept thus relates to any self identified community that is marginalized without power unable to take decisions over its destiny and often experiencing high levels of illiteracy under education and overt or covert discrimination

The basic rights of such communities need protection and promotion There is however a danger of generalizing about minorities and forgetting the complexity of their social composition including the rural poor urban migrants older people women and children These groups may be considered as doubly vulnerable What makes their situation particularly problematic is that there is often a deliberate political policy on the part of majorities and states not to give due regard to the legitimate interests of minorities while members of minorities see their identity as central to their social and economic situation They are often excluded from political power and decision making in the development process without equal opportunities to secure a better quality of life One further danger may lie in regarding ethnicities as fixed rather than as the potentially fluid phenomena that they often are Situational ethnicity does occur and individuals and groups do modify their self identifications depending on circumstances Please note that the terminology in the fields of minority rights and indigenous peoples rights has changed over time MRG strives to reflect these changes as well as respect the right to self identification on the part of minorities and indigenous peoples At the same time after over 50 years work we know that our archive is of considerable interest to activists and researchers Therefore we make available as much of our back catalogue as possible while being aware that the language used may not reflect current thinking on these issues

The Dominican Republic Frank Moya Pons,1998 This work examines the distinct political periods in the country s history such as the Spanish French Haitian and US occupations and the several periods of self rule It also covers a socioeconomic history by establishing links between socioeconomic conditions and political developments
