**Tracing Your Railway Ancestors** Di Drummond, 2010-06-15 Di Drummond's concise and informative guide to Britain's railways will be absorbing reading for anyone who wants to learn about the history of the industry and for family history researchers who want to find out about the careers of their railway ancestors. In a clear and accessible way she guides readers through the social, technical and economic aspects of the story. She describes in vivid detail the rapid growth, maturity and long decline of the railways from the earliest days in the late eighteenth century to privatization in the 1990s. In the process she covers the themes and issues that family historians, local historians and railway enthusiasts will need to understand in order to pursue their research. A sequence of short, fact-filled chapters gives an all-round view of the development of the railways. In addition to tracing the birth and growth of the original railway companies, she portrays the types of work that railwaymen did and pays particular attention to the railway world in which they spent their working lives. The tasks they undertook, the special skills they had to learn, the conditions they worked in, the organization and hierarchy of the railway companies and the make-up of railway unions: all these elements in the history of the railways are covered. She also introduces the reader to the variety of records that are available for genealogical research: staff records and registers, publications, census returns, biographies and autobiographies, and the rest of the extensive literature devoted to the railway industry.

**Locomotive Railway Carriage and Wagon Review**, 1929      **British Archives** Janet Foster, Julia Sheppard, 1995-09-27 Since it was first published in 1982 British Archives has established itself as the premier reference work to holdings of archives and manuscript collections throughout the UK. The 3rd edition has been extensively revised and enlarged with more than 150 new entries, further widening the range of the book. Entries are structured to show the archives of the organisation as distinct from deposited collections, and significant non-manuscript material, and additional details of fax number and conservation provision are included for the first time. All the existing entries have been significantly updated together with the select bibliography and list of useful addresses of various organisations involved in the care and custody of archives. The introduction provides an invaluable guide to researchers using archives, including a summary of the relevant legislation and a detailed description of the usual holdings of county and other local authority record offices.
