Dont Look Back:

Documenting the Documentary Barry Keith Grant, Jeannette Sloniowski, 1998 Documenting the Documentary features essays by 27 film scholars from a wide range of critical and theoretical perspectives Each essay focuses on one or two important documentaries engaging in questions surrounding ethics ideology politics power race gender and representation but always in terms of how they arise out of or are involved in the reading of specific documentaries as particular textual constructions By closely reading documentaries as rich visual works this anthology fills a void in the critical writing on documentaries which tends to privilege production over aesthetic pleasure As we increasingly perceive and comprehend the world through visual media understanding the textual strategies by which individual documentaries are organized has become critically important Documenting the Documentary offers clear serious and insightful analyses of documentary films and is a welcome balance between theory and criticism abstract conceptualization and concrete analysis **D. A.**

Pennebaker Keith Beattie, Trent Griffiths, 2015-03-04 This wide ranging and insightful collection of interviews with D A Pennebaker 1925 2019 spans the prolific career of this pioneer of observational cinema From the 1950s Pennebaker made documentary films that revealed the world of politics celebrity culture and the music industry Following his early collaborations with Robert Drew on a number of works for television his feature length portrait of Bob Dylan on tour in England in 1965 the landmark film Dont Look Back established so called direct cinema as a form capable of achieving broad theatrical release With Monterey Pop Pennebaker inaugurated the popular mode of rock concert film or rockumentary a style of filmmaking he expanded on through a number of films including Ziggy Stardust and the Spiders from Mars and Depeche Mode 101 Pennebaker always regarded collaboration as an integral part of his filmmaking methods His long running collaboration with Richard Leacock and subsequently his work with Chris Hegedus enriched his approach and in the process instituted collaboration as a working practice integral to American direct cinema His other collaborations particularly those with Jean Luc Godard and Norman Mailer resulted in innovative combinations of observational techniques and fictional aesthetics Such films as The War Room which was about the 1992 Democratic primaries and was nominated for an Academy Award and the 2009 Kings of Pastry continue to explore the capacities of observational documentary In 2012 Pennebaker was the first documentary filmmaker to be awarded an Academy Honorary Award by the Academy of Motion Picture Arts and Sciences How Documentaries Went Mainstream Nora Stone, 2023 Since the 1960s documentary films have moved closer to the mainstream thanks to the popularity of rockumentaries association with the independent film movement support from public and cable television and the rise of streaming video services Documentary films have become reliable earners at the U S box office and ubiquitous on streaming platforms while historically they existed on the margins of mainstream media How do we explain the growing commercialization of documentary films and the conditions that fueled their transformation The growing commercialization of documentary film has not gone unnoticed but it has not been sufficiently explained Streaming

and the growing interest in reality TV are usually offered as initial explanations whenever a documentary enters the cultural conversation or breaks a box office record but neither of those causes grapple with the overlapping causal mechanisms that commercialized documentary film

How Documentaries Went Mainstream provides a more comprehensive and meaningful periodization of the commercialization of documentary film Although the commercial ascension of documentary films might seem meteoric it is the culmination of decades long efforts that have developed and fortified the audience for documentary features Author Nora Stone refines rough explanations of these efforts through a robust synoptic history of the market for documentary films using knowledge of film economics and the norms of industry discourse to tell a richer story This periodization will allow scholars to compare the commercialization of documentary film with other genres Drawing on archival documents industry trade journals and popular press and interviews with filmmakers and film distributors Stone illuminates how documentary features have become more plentiful popular and profitable than ever before

Down the Highway Howard Sounes, 2011-05-24 The acclaimed biography now updated and revised Many writers have tried to probe Dylan's life but never has it been done so well so captivately The Boston Globe Howard Sounes's Down the Highway broke news about Dylan's fiercely guarded personal life and set the standard as the most comprehensive and riveting biography on Bob Dylan Now this edition continues to document the iconic songwriter's life through new interviews and reporting covering the release of Dylan's first 1 album since the seventies recognition from the Pulitzer Prize jury for his influence on popular culture and the publication of his bestselling memoir giving full appreciation to his artistic achievements and profound significance Candid and refreshing Down the Highway is a sincere tribute to Dylan's seminal place in postwar American cultural history and remains an essential book for the millions of people who have enjoyed Dylan's music over the years Irresistible Finally puts Dylan the human being in the rocket's red glare Detroit Free Press
