It is a high risk investment vehicle with the potential for manifold returns and the possibility of a complete investment written off. Although it is essentially private money and smaller in size than traditional financing pillars, its impact has been phenomenal even to the extent of transforming the way we live in the modern world. Yet the fact remains that the business of venture capital is not fully understood by startup founders and fund managers are also not familiar with the inner workings of other venture funds. And as more public or tax players money flows into this asset class it begs a shift from the existing esoteric styles to more transparent and predictable operations. It would also be beneficial if the craft of venture capital is well understood by the business community and most importantly policymakers as Demystifying Venture Capital.
