Applied Systemic Studies Henry Selvaraj, Takayuki Fujimoto, 2023-03-21 This book is a collection of a wide range of research papers that combine both the humanities and sciences in applied informatics. In particular, it is intended for readers interested in the fields of artificial intelligence, data science, virtual reality, and intelligent systems. Technologies and findings in artificial intelligence, data science, virtual reality, and intelligent systems are being used in all academic disciplines today. This book is a compilation of specific and advanced research findings from a wide range of research fields where they are being applied today. The papers included are based on those presented in August 2022 at the International Conference on Systems Engineering ICSEng Tokyo, a prestigious academic conference that has been held annually since 1974. The papers have been rigorously reviewed and selected by multiple peer reviewers.

School Counselors as Practitioners Judy A. Nelson, Lisa A. Wines, 2024-06-25 *School Counselors as Practitioners* Second Edition is a hands-on practice-based task-oriented guide to being an effective school counselor. Thoroughly revised, this textbook continues to address the foundation of school counseling, the main duties of a school counselor, the skills needed to be successful, and what to expect as a school counseling professional. All these topics have been updated to include the current thinking, research, and evidence-based practices and challenges in school counseling. Additionally, interviews of principals, school counselors, and community leaders are included, which provide readers with the reality of how to navigate the waters of the comprehensive school counseling program. The chapter authors also highlight the necessity of designing, implementing, and evaluating the counseling program for continuous improvement. Online resources provide students with templates and handouts for on-the-job responsibilities, as well as quiz questions for every chapter. This updated edition is essential reading for counselor educators, graduate students enrolled in a school counseling program, supervisors of school counselors, including administrators, and practicing school counselors.

Enhancing Student Well-being, Academic Success, and University Reputation through Optimized Communication Strategies Tudor-Nicolae Simionescu, 2025-07-18 A book on how optimized communication strategies and better support services can enhance student well-being, academic success, and University's reputation. The study shows that today the most important stressors for both students and academia are disjointed channels of information, inadequate support services, work overload, and time management difficulties. It draws attention to a crucial flaw in higher education which remains focused on seeing students through a very narrow lens as recipients of education, not as whole individuals, adults with needs beyond the classroom. The conclusions of the study are, however, optimistic: the tools are there, the need is clear, and the impact can be big. Universities can change how they help their communities with one message, one service, and one student at a time.
