The Hitchhiker's Guide to AI Arthur Goldstuck, 2023-12-01 For the past decade Arthur Goldstuck has had a front row seat to witness the remarkable rise of AI across all sectors of business and society As generative AI becomes a household phrase and sparks hopes and fears of machines augmenting or replacing human beings this guide offers an invaluable overview of the past present and future of AI The Hitchhiker's Guide to AI is aimed at both beginners and those who consider themselves experienced or skilled at using AI It draws on many years of direct access to global and regional leaders in using AI from Africa to the Middle East to North America to Europe and Asia and it provides unique perspectives on generative AI as well as practical advice for using it It is useful for consumers academics professionals and anyone in business who wants to get up to speed quickly and practically It also entertains and inspires anyone who is curious about AI or already engaged in its possibilities Need to understand or refine prompting You're in the right place Need to prepare for the coming impact of AI on health travel education and business This is the book for you **Academic Integrity Meets Artificial Intelligence**

Ruth Baker-Gardner, 2025-11-13 **Academic Integrity Meets Artificial Intelligence** examines academic integrity practices in higher education institutions HEIs in the Caribbean assessing the current and potential impact of generative artificial intelligence tools on academic integrity and how HEIs globally have been responding Higher Ed: Tough Times in a World Divided Phillip L. Beukema, 2025-04-02 It's no secret that the world of higher education in the U.S. is in trouble It faces image problems some of the worst financial pressures ever political turmoil in at least half the states in our country and much more Not all these challenges are of academia's own making but many are Too many silos deep roots in tradition and confused institutional missions all contribute to the state of affairs Chapter by chapter the author lays bare what he regards as the most consequential matters confronting our higher education enterprise today These include everything from enrollment volatility and decline to the impact of a culture war on the DEI movement dim prospects for improved operational funding growing partisanship of university trustees and system boards the impacts of heavy reliance on contingent faculty increasingly unattractive and non-competitive faculty salaries and institutional missions that have strayed or enlarged with unintended consequences As exhausting as this short list is it covers only part of the territory Colleges and universities of all stripes are affected from community and technical colleges to four year and graduate colleges and universities both private and public While there is no silver bullet at the ready the author outlines a rough blueprint for the kinds of initiatives and strategies needed to tackle the most consequential challenges we face today For many a school survival is truly at stake but achieving a turnaround is possible only if their leaders have the vision and courage to guide their institutions in the direction of life-changing innovation and renewal Designing Instruction with Generative AI Brent A. Anders, 2025-09-16 **Designing Instruction with Generative AI** offers a novel set of tools and strategies for leveraging generative AI to create engaging and personalized learning experiences While instructional designers are a tremendous asset to higher education not all colleges

or universities have the robust staff needed to support all instructors on staff or large student populations Drawing on a wealth of research professional experience and strategic insights this book equips new and seasoned teaching faculty and trainers with step by step directions on how freely accessible artificial intelligence software can assist with all aspects of the course creation and instruction process and cater to the needs of diverse learners Each chapter offers forward thinking and empirically validated ways to help faculty create and improve instructional materials course design and learning environments while supporting their digital literacies Rather than introduce AI as a means of outsourcing subject area expertise critical thinking or cognitive processes the author instead emphasizes its potential to build on traditionally honed knowledge and foundational instructional design practices From optimizing course alignment and accessibility practices to fostering active learning motivation and engagement educators will find new solutions to common teaching and learning challenges with greater efficiency in time and capacity The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
