Program Evaluation Susan P. Giancola, 2025-04-14

This text aims to build evaluation capacity by increasing knowledge about evaluation and improving skills to conduct evaluations. The book's embedded approach uses program theory to understand relationships between activities and objectives, logic modeling to represent the program's theory, and an evaluation matrix to structure the evaluation within the program. The approach is systematic and focused on continuous improvement. The Second Edition adds topics suggested by users of the book, incorporates content that the author has added to her own classes, and covers emerging areas in evaluation since the publication of the first edition, such as artificial intelligence and equity in evaluation. A companion website at <http://edge.sagepub.com/Giancola2e> includes a number of instructor resources, including editable PowerPoint slides and assignments.

Qualitative Content Analysis Udo Kuckartz, Stefan Rädiker, 2023-02-01 Are you working with qualitative data but unsure how to approach your analysis? This hands-on guide to qualitative content analysis from two internationally renowned experts provides you with a clear strategy for analysing your data, whether you are working with social media content, field notes, images, narratives, or focus group data. Using qualitative interviews as an example, the book provides a clear structure for approaching your analysis that can be adapted for your research project. Explaining how qualitative content analysis differs from quantitative methods, the book provides you with a solid understanding of the principles behind QCA, a step-by-step guide to three types of QCA, guidance on how you can use software to enhance your analysis. Digital Research Methods for Translation Studies Julie McDonough Dolmaya, 2023-12-22 Digital Research Methods for Translation Studies introduces digital humanities methods and tools to translation studies. This accessible book covers computer-assisted approaches to data collection, data analysis, and data visualization and presentation, offering authentic examples of these approaches in both translation studies research and projects from related fields. With a diverse range of examples featuring various contexts and language combinations to ensure relevance to a wide readership, this volume covers the strengths and limitations of computer-assisted research methods, as well as the ethical challenges specific to this kind of research. This is an essential text for advanced undergraduate and graduate translation studies students, as well as researchers looking to adopt new research methods. *Seventh International Conference on Tools with Artificial Intelligence : Proceedings, November 5-8, 1995, Herndon, Virginia, 1995* Papers of the meeting held in Herndon, VA, in Nov 1995 and sponsored jointly with
