**Digital Literacies** Mark Pegrum, Nicky Hockly, Gavin Dudeney, 2022-05-11 Dramatic shifts in our communication landscape have made it crucial for language teaching to go beyond print literacy and encompass the digital literacies which are increasingly central to learners' personal, social, educational and professional lives. By situating these digital literacies within a clear theoretical framework, this book provides educators and students alike with not just the background for a deeper understanding of these key 21st century skills but also the rationale for integrating these skills into classroom practice. This is the first methodology book to address not just why but also how to teach digital literacies in the English language classroom. This book provides a theoretical framework through which to categorise and prioritise digital literacies. Practical classroom activities to help learners and teachers develop digital literacies in tandem with key language skills. A thorough analysis of the pedagogical implications of developing digital literacies in teaching practice. A consideration of exactly how to integrate digital literacies into the English language syllabus. Suggestions for teachers on how to continue their own professional development through PLNs (Personal Learning Networks) and how to access teacher development opportunities online. This book is ideal for English language teachers, English language learners of all ages and levels, academics and researchers of all age groups and levels, academics and students researching digital literacies, and anyone looking to expand their understanding of digital literacies within a teaching framework. **European Perspectives on**

**Learning Communities and Opportunities in the Maker Movement** Barker, Bradley S., 2019-01-11 While some manufacturing experts see the maker movement as a step back in education and production, the movement presents a 'learn by doing' approach to emerging professionals. Making is a method that takes some resources and modifies these resources in a way that makes the sum more valuable than the parts. *European Perspectives on Learning Communities and Opportunities in the Maker Movement* is a collection of innovative research on the methods and applications of value creation and problem solving within European learning communities. While highlighting topics including alternative learning methods, biomimetics, connected learning theory and gentrification, this book is ideally designed for entrepreneurs, business professionals, manufacturers, carpenters, production experts, educators, academicians, industry professionals, researchers and students seeking current research on the maker movement with examination through case studies.

*How to Release Music* Kat Reinhert, Co-Founder F-Flat Books, Co-Founder Songwriting for Music Educators, Adjunct Professor of Music, Sarah Gulish, Sarah Gulish, 2025 Written by two independent artists and educators, *How to Release Music* gives artists, mentors and music educators working at the secondary or collegiate level a practical overview of what goes into releasing independent music, both original music and covers. Designed as an easy-to-read reference guide and resource for those teaching students who are curious about how the music industry works, the book offers fundamental knowledge for those who not only want to release their own music but whose students are interested in releasing music. , [School Counselors as Practitioners](#)
