, 2024-01-22 INTRODUCTION There comes a time when the elastic snaps When you push yourself to breaking point and everything crashes down My breaking point came on a gloomy Monday morning commute in 2015 Sitting in my car waiting for the lights to change I looked at two guys in their cars on either side of me They looked as miserable as I felt At that moment I burst into tears What the fuck was I doing with my life I was unhappy in my personal life and hated my job I couldn t see a way out I was too invested in my career too old to start again Looking back I didn t know jack shit about building a fitness business Corporate marketing is one thing Doing everything from scratch alone in a different industry is another I didn t have a creative agency or a multimillion pound budget All I had was a Personal Trainer certificate and the

ironparadisefitness.com domain name Nevertheless I started building my online empire Or as I now refer to it pissing in the wind for two years I would write lousy articles post selfies and wonder why clients weren't beating down my virtual door Desperate to carve a way out of corporate life I vowed not to quit My business was my obsession Going out meeting friends and taking a break were a rarity I thought it was the only way to be successful I became a hermit A recluse Like the creepy guy kids fear in horror movies That's Old Man Mitchell from No. 29 He never leaves the house Some say he only goes outside to dispose of the dead bodies I wasn't that bad but my social life went on ice I studied nutrition and learned the intricacies of exercise mechanics I read books and invested in courses on social media copywriting and web design Iron Paradise Fitness had consumed my entire life and I loved it It was the fire in my belly I'd been missing The passion I needed Although it did make for awkward conversations on Tinder dates What do you like to do in your spare time The innocent question would come Well I'm building my own business right now so that's my main focus Ah cool But what do you like to do for fun Work on my business Yeah but what about when you're not doing that I'm either working on my business thinking about working on my business or eating Oh

**Online Income Generation Evolution** Raymond Wayne, 2019-01-15 Online Income Generation Evolution One of the most well-known clichés is the warning against placing all of one's eggs in a single basket Like most oft-repeated sayings that prohibition contains a very large kernel of truth The wisdom of avoiding putting too much stock in any one thing holds particularly true of online home business owners Those who concentrate their online business plans on the promotion of a single product or on the implementation of a limited single strategy may be able to produce profitable results However a single change in the relatively volatile online marketplace can render their months of hardwork almost valueless within days That's why the smartest online business owners avoid stuffing too many valuable eggs in a single basket Instead they seek out and take advantage of multiple income streams Doing so has two chief advantages First of course it can insulate one from disaster By having many independent means of making money one can survive a downfall in a single moneymaking area without experiencing an emergency Those who don't have alternative income streams in place may find themselves upside down very quickly if a major change or problem occurs with their primary earner In such with a good moneysense having multiple revenue sources acts as a hedge bet or a form of insurance against change or unforeseen circumstances Second those who develop multiple income streams for their online home business are able to earn larger sums and to do so with greater consistency Those who have several ways to generate revenue can really build an impressive income when everything is going well while still being protected if a problem should ever arise in one area of their business That is really learning to appreciate Online Income Generation Evolution with many ways to earn is so attractive you make more while risking less Anyone relying on a single product or idea should instead look to add additional means of generating income to their online business plan If you are considering starting or growing your online business take great care to avoid placing too many eggs in any single basket Instead find plans that will allow you to benefit from multiple income streams
