The Past, Present and Future of Education in the USA Jamey M. Long, 2025-12-22 The Past Present and Future of Education A Business Management Perspective critically analyzes the systemic decline of the US Department of Education questioning its current relevance and advocating for transformative change The goal of this book is to provide a history of education the current state and what needs to possibly be done to strategically align the vision of education with the mission of businesses Targeting a broad audience educators administrators parents policymakers and community leaders the book presents a compelling case for reimagining the American education system Through data driven insights and statistical analysis it highlights current deficiencies and their long term implications for American youth The goal is to encourage collaborative efforts to re evaluate educational priorities address systemic flaws and better align the system with 21st century demands ultimately preparing students for a globally competitive environment Academically rigorous and pedagogically rich the book incorporates models case studies and chapter based thematic exercises These resources make it highly adaptable for use in undergraduate and graduate education and policy courses as well as in professional development programs The text offers a forward looking curriculum tool that prepares students and educators alike to take a proactive role in shaping the future of education

The Immortal Mind Michael Egnor, Denyse O'Leary, 2025-06-03 A neuroscientist and surgeon makes an argument for the existence of a spiritual human soul in this eye opening book Many scientists and doctors believe that there is no such thing as the soul That there is no part of us that persists beyond death We are not spiritual in any respect We are made up of cells and tissue and completely controlled by a material organ in our heads the brain In this groundbreaking book Dr Michael Egnor makes the case based on 40 years of practice and over 7 000 brain surgeries that science has gotten it all wrong The human brain is incredible mysterious and powerful But it's not what makes us who we are The soul does that Drawing on the most important research studies in neuroscience Dr Egnor presents evidence that the brain alone does not explain the mind He explores using modern neuroscience and his vast surgical experience how inside every damaged brain there is a thinking feeling person with a spiritual soul that transcends the brain He also uses fascinating case studies to show how research on conjoined twins who share parts of their brains on patients in deep coma who are still able to communicate with people around them on near death experiences and on artificial intelligence all make a scientific case for the existence of the spiritual human soul Engaging thought provoking and groundbreaking The Immortal Mind shows here that some aspect of who we are is spiritual and immortal transcending the physical body
