Otto, 1989 The Iowa That Was Wayne Gustave Johnson, 2022-07-29 You can take the boy out of the farm but you can't get the farm out of the boy Wayne Gustave Johnson explores this proverb as he recounts memories of his early years on an Iowa farm rented by his immigrant Swedish parents Nourished by these gentle parents a little church eight years of country school and four older siblings Johnson established the values that shaped his life The labor intensive farming of the 1930s grounded him in the dignity of labor and the sense of fulfillment which comes through cooperation with nature A little church of fundamentalist leanings nurtured his love of choral music and gave him respect for the support provided by religious faith While his eight years of country schooling would not quite classify as prep school experience they did provide a basic grasp of the three Rs Sex education of sorts is inevitable on an Iowa farm where the romancing of farm animals is open to view The transfer of these observed activities to human experience was natural but required some fine tuning At thirteen the death of his father prompted the author to eventually pursue the big questions through the study of religion and philosophy *Father Involvement and Gender Equality in the United States* Richard Petts, 2022-08-31 This book focuses on issues of family work and gender with a focus on gender inequality Women are disadvantaged in both paid and domestic work due in large part to being primarily responsible for duties within the domestic sphere The COVID 19 pandemic has exacerbated these inequalities making the issue of reducing gender inequality even more pressing Fathers play an important role in contributing to and perhaps reducing gender inequality but barriers to their involvement in family life have received less attention than detailing challenges that mothers face If men were equally involved in all aspects of domestic life i.e. were fully engaged dads women's burdens would be reduced and perceptions of who is responsible for parenting may change resulting in greater gender equality *Father Involvement and Gender Equality in the United States* focuses on the key issue of father involvement seeking to understand why fathers are less involved at home than mothers despite an increased desire for fathers to be more engaged parents This book utilizes recent national survey data interviews with fathers and insights from the author's personal experience as a father to identify current norms of fatherhood within the United States barriers to father involvement and strategies to overcome these barriers Overall this book argues that by establishing the expectation that fathers will be fully engaged dads as a cultural norm and by providing structural opportunities for fathers to meet this cultural standard greater gender equality can be achieved within the United States The arguments presented in this book are valuable for scholars in the areas of family work and gender policymakers and business leaders who seek to promote gender equality and work family balance and parents who are interested in achieving a more egalitarian division of labor within their own families Working Mother, 2003-10 The magazine that helps career moms balance their personal and professional
